1. Overview

- 1 Into Hainan Unique Advantage
- 2 Southern Hub with Efficient Connection
- 3 Rapid Economic Development
- 4 Openness and Vitality Gathered Foreign Investment
- 5 Building Hainan Dream with Featured Tag

1

1 Into Hainan unique advantages

Location Advantage: China's southernmost tip/Gold latitude

- Hainan located at the southernmost tip of China, it is the only tropical and semi-tropical region in China. It is located at the golden latitude of tourist destinations around the world with Hawaii, Dubai, Maldives, and Phuket
- It is an important open gateway to the Indian Ocean and Pacific Ocean, and a regional center connecting Northeast Asia and Southeast Asia

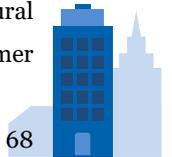

Ecological environment: natural large greenhouse

Percentage of days of good air throughout the year

- The air quality ranks No.1 in China, and the average annual concentration of fine particles (PM2.5) is only 16 micrograms/cubic meter
- The tropical maritime monsoon climate has always been known as the "natural large greenhouse". Without winter season, Hainan has year round summer season and the average annual temperature is 22-27°C
- The coastline has a total length of more than 1,900 kilometers, and there are 68 large and small harbors

Overview of Hainan

Area 35,400 square kilometers (land)

Population 944.72 million permanent residents

Administrative division

A total of 4 prefecture-level cities including Haikou City (provincial capital), Sanya City, Sansha City and Danzhou City; Qionghai City, Wenchang City, Wanning City, Dongfang City, Wuzhishan City, Ledong Li Autonomous County, Chengmai County 15 county-level administrative units in Gaoxian, Ding'an, Tunchang, Lingshui Li Autonomous County, Changjiang Li Autonomous County, Baoting Li and Miao Autonomous County, Qiongzong Li and Miao Autonomous County, Baisha Li Autonomous County

Natural Resource

Abundant marine mineral resources such as oil and natural gas, with a hydropower reserve of more than 1 million kilowatts

2 Southern Hub with Efficient Connection

Hainan is a gateway to southern China and has become a transportation hub linking Southeast Asia

4H Flight Hour

Covering **21** countries and regions
47% of the world's population

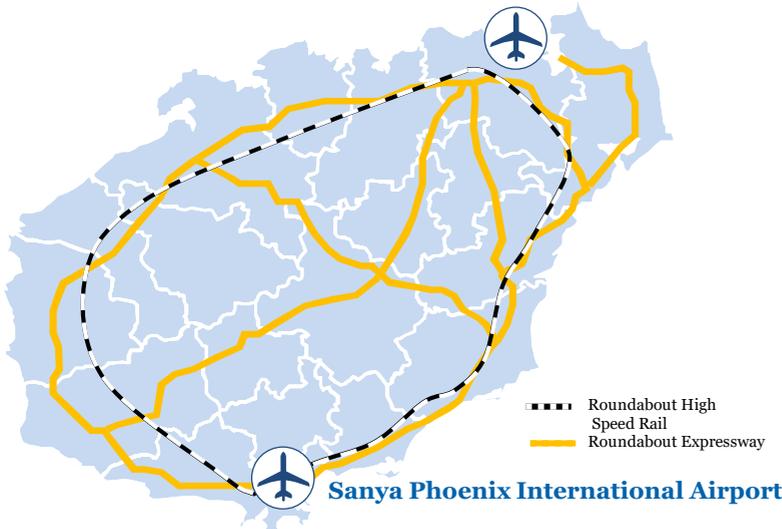

8H Flight Hour

Covers **59** countries and regions
67% of the world's population

High-speed rail road, highway connected, Efficient internal Traffic Connection

Haikou Meilan International Airport

Air Transportation

2 international airports in Sanya Phoenix and Haikou Meilan

400 domestic routes and 103 international routes. The international routes that directly reach the world's major passenger sources continually increasing.

All major commercial cities in Southeast Asia are within 4-5 hours.

Water Transportation

At present, Hainan has formed a "quartet and five ports" pattern with Haikou Port in the north, Yangpu Port and Basuo Port in the west, Sanya Port in the south and Qinglan Port in the east.

Yangpu Port is a new shipping hub port for international land and sea trade.

Train Transportation

The world's first high-speed rail around the island

A maglev train with a speed of 600km/h is being planned.

"1 hour economic circle" is forming.

Road Transportation

The first highway around the island in China

The "Tianzi" expressway has been fully completed, with a total mileage of 1153 kilometers. The Hainan roundabout tourist highway is being planned and constructed as the "National Coast No. 1 Scenic Road", which will create China's only roundabout travel experience road.

3 Rapid Economic Development

Economic scale has steadily increased

- The gross regional product of Hainan Province in 2019 is 530.894 billion yuan (calculated at comparable prices), an increase of 5.8% over the previous year.
- In the past five years, the average annual growth rate has reached 8.2%.

Continuous adjustment of industrial structure

- Against the backdrop of the new economic normal, Hainan Province's industrial structure is further optimized.
- The first industry is developing towards a strong province of ecological agriculture; the second industry is proactively planning strategic emerging industries and optimizing and upgrading traditional industries; The tertiary industry continues to advance towards specialization, high quality, and high added value.

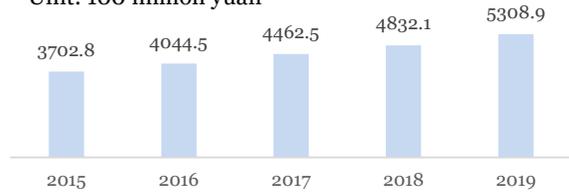

Booming Consumer Market

- The total retail sales of social consumer goods reached 171.708 billion yuan, an increase of 6.8% over the previous year.
- Among them, the retail sales of the wholesale and retail industry, accommodation and catering industry are increasing year by year, and the consumer market is booming.

2015-2019 Hainan Province GDP

Unit: 100 million yuan

Comparison of 3 industrial structures in Hainan Province (2015/2019)

Category	2015	2019
1st	23.1%	20.3%
2nd	23.6%	20.7%
3rd	53.3%	59.0%

Total retail sales of social consumer goods in Hainan Province (2015-2019)

Unit: 100 million yuan

Industry	Retail sales (100 million yuan)	Increase Rate
Retail	523.02	3.8%
Accommodation	240.59	6.1%
Duty-free Sales	136.10	30%

4 Openness and Vitality Gathered Foreign Investment

FDI has grown exponentially

In 2019, FDI reached **US\$15.1 billion**, increased **106.1%**

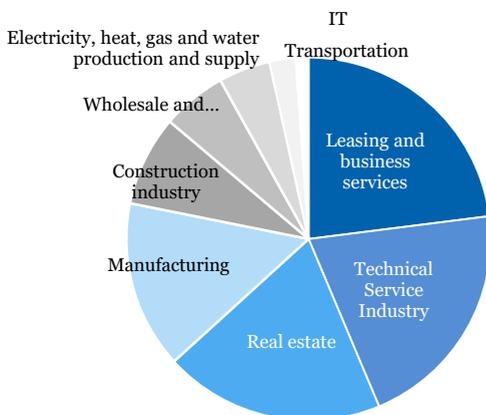

In 2019, 338 newly established foreign direct investment enterprises in Hainan Province, an increase of 171 from the previous year, of which, 28 Fortune 500 companies have settled in Hainan.

The field of foreign investment continues to expand

Foreign investment in Hainan Province is mainly distributed in the fields of leasing and business services, technical services, real estate, manufacturing and other industries.

- Among them, the amount of foreign investment in the wholesale and retail industry, technical service industry and other industries increased the fastest year-on-year.

Key areas of foreign direct investment in Hainan Province in 2019

More diverse sources of foreign capital

In 2019, foreign investment in Hainan Province comes from 40 countries and regions, of which Asian countries and regions are the main sources, and developed countries in Europe and the United States have experienced rapid growth.

- Hong Kong has been the most important source of foreign investment in Hainan Province for many years. In 2019, Hong Kong's foreign investment accounted for 96.2%. Singapore is the second largest source of foreign investment, with foreign investment accounting for 2.21%.
- In 2019, the United States, Germany, the Netherlands, Canada and other developed countries in Europe and the United States achieved a breakthrough in foreign direct investment in Hainan.

5 Building Hainan Dream with Featured Tag

The Only Free Trade Port in China

- On April 13, 2018, the Party Central Committee decided to support the construction of the Hainan Free Island Pilot Zone and Hainan to gradually explore and steadily advance the construction of a free trade port with Chinese characteristics. Hainan Free Trade Port will target the highest level of openness in the world and create a new highland for China's opening to the outside world.

"Belt and Road" international platform

- Hainan has a unique geographical location and has been a necessary place and an important relay port for the Maritime Silk Road since ancient times. In recent years, Hainan has actively held the Boao Forum for Asia, built the Pan-South China Sea Economic Cooperation Circle, and built a new bridge for exchanges and cooperation between Hainan and the countries along the route.

Comprehensively deepen the reform and opening-up pilot zone

- Hainan will take institutional innovation as the core, break through traditional institutional constraints, continuously deepen reform and opening up, and adopt new measures and methods to promote economic and social development, establish and improve a system that is compatible with free trade ports, to provide the "Hainan Plan" for establishing and leading international trade.

National Ecological Civilization Pilot Zone

- Hainan has the best environment in China with forefront eco indicators. Taking position of the national ecological civilization pilot zone, Hainan will target the world's leading level of ecological environment quality and resource utilization efficiency to be the name card of beautiful China construction.

International Tourism Consumer Center

- The International Tourism Consumption Center is the new positioning of the Party Central Committee for Hainan in the new period. It is proposed against the background of the trending of the tourism industry and reflecting Hainan's own unique advantages. Hainan will proceed from building a global duty-free shopping mall and fashion consumption center, enriching the supply of international tourism products, and cultivating new formats for tourism consumption to build an international tourism consumption center with world influence.

National Major Strategic Service Guarantee Area

- The unique geographical advantage has enabled Hainan to play an irreplaceable and important role in safeguarding national sovereignty, advancing the strategy of a maritime power and the construction of the 21st century Maritime Silk Road, and achieving the integration of military and civilian development. It is the sacred mission shouldered by Hainan to serve the country's overall domestic and foreign affairs.

Part 2. Opportunities in Hainan

- 1 “Overall Plan for the Construction of Hainan Free Trade Port”
Overview
- 2 Free Trade Port “6+1+4” System Design
- 3 Early Arrangements of Hainan Free Trade Port
- 4 Sixty Key Policies for Foreign Investments

2

1 “Overall Plan for the Construction of Hainan Free Trade Port” Overview

Overall Requirement

Benchmark international high-level economic and trade rules, and build Hainan Free Trade Port into a clear banner and important opening portal of China to the outside world in the new era.

Scope of Implementation

Whole area of Hainan Island.

Key Characteristics

**“Zero-tariff, low tax rate, simple tax rules, more freedom” .
More resources , more opportunities, low cost , less supervision.**

In 2035

Further optimize and improve the opening policy and related institutional arrangements **to fully realize free trade facilitation, free investment facilitation, free flow facilitation of cross-border capital flows, free entry and exit of personnel, free travel and transportation, and safe and orderly flow of data.**

In 2020

Free Trade Port started construction, strengthening the construction of special customs supervision areas

In 2050

Fully build a **high-level free trade port** with strong influence.

In 2025

Basically, establish a set of free trade port policies focusing on trade and investment facilitation, and start the Hainan island customs closure operation in due course.

2 Free Trade Port “6+1+4” System Design

6 liberalization

Trade liberalization and facilitation

- To enable the free flow of trade, the island province will introduce measures that center on zero tariffs for the trade of goods, while facilitating both entry and business operation for service providers.

Investment liberalization and facilitation

- Market entry will be markedly widened for investments in an open, transparent and predictable environment featuring strengthened intellectual property rights protection and fairness in competition, in order to further unleash the vitality of market entities.

Policy examples

1. "One negative three positive" zero tariff list
2. Goods and articles departing from Hainan Free Trade Port are subject to export management
3. Postage items entering the mainland are taxed in accordance with regulations.
4. Transit goods that are shipped from overseas, reloaded, sorted and assembled through a free trade port, and then shipped to other countries or regions simplify the customs procedures.

Policy examples

1. Cross-border trade and new type of international trade bank authenticity audits are carried out from pre-examination to post-examination verification
2. Implementation of the Hainan Free Trade Port Cross-border Service Trade Negative List
3. Implementation of market access commitment
4. Implement a special list of market access for Hainan Free Trade Port
5. Implementation of Hainan Free Trade Port Foreign Investment Admission Negative List
6. Government procurement treats domestic and foreign companies equally

2 Free Trade Port“6+1+4” System Design

6 liberalization (continue)

Free cross-border capital flow facilitation

- Finance serves the real economy. Hainan will open capital accounts in phases based on free trade and investment facilities, and promote the cross-border flow of funds in an orderly manner.

Policy examples

1. Construct a multi-functional free trade account system
2. Remove restrictions on offshore financing for ships and aircraft
3. The management authority of the registration system for the issuance of foreign debt issued by enterprises is delegated to Hainan
4. Expand the scope of cross-border asset transfer
5. Give priority to support companies' listing overseas
6. The foreign exchange registration of the company's overseas listing is handled directly at the bank
7. Construction of Hainan International Intellectual Property Exchange
8. Support overseas securities fund futures institutions to set up wholly-owned or joint venture financial institutions
9. Support the establishment of property insurance, personal insurance, reinsurance companies, mutual insurance organizations and self-insurance companies
10. Support cooperation with overseas institutions to develop cross-border medical insurance products
11. Construction of international energy, shipping, property rights, equity and other trading venues
12. Non-residents can participate in transactions and settlement of funds in trading venues
13. Development of OTC derivatives business
14. Launch cross-border asset management business
15. Issuing Hainan local government bonds globally

Free and convenient access for people

- More accommodative traveling regulations will be implemented to encourage talent in high-end industries to stay, reside or work in the free trade port to build a talent hub.

Policy examples

1. Allow foreign universities of science, technology, agriculture and vocational education to independently run schools in Hainan
2. Build Hainan International Education Innovation Island
3. Implement a more convenient visa-free entry policy
4. Use salary level as the main indicator to evaluate the human resources category
5. Negative list management for work permits for foreign personnel
6. Overseas personnel are allowed to serve as legal representatives of legal institutions, institutions, and state-owned enterprises

2 Free Trade Port“6+1+4” System Design

6 liberalization (continue)

Free and convenient transportation

- High-level free and open transportation policies will be implemented. The construction of international shipping and aviation hubs of the New International Land-Sea Trade Corridor will be promoted to speed up the building of a modern comprehensive transportation system.

Safe and orderly flow of data

- While ensuring the security of data flow, China will expand opening-up in the data field, innovate institutional design, and cultivate and develop the digital economy in the free trade port.

Policy examples

1. Bonded jet fuel is allowed for flights in and out of Hainan Island
2. Export tax rebates will be granted to ships built in the "China Yangpu Port" and engaged in international transportation
3. Bonded oil is allowed for domestic ships engaged in domestic and foreign trade on the same ship using "China Yangpu Port" as a transit port
4. Construct "China Yangpu Port" International Ship Port
5. Tax rebate at the port of departure for the goods transited through the "China Yangpu Port"
6. Implement the import and export management system of “first line” liberalization and “second line” control in Yangpu Bonded Port Area
7. Expand the opening of air rights including fifth and seventh air rights
8. Build an international aviation hub
9. Build an international shipping hub for the new land and sea channel in the west

Policy examples

1. Open value-added telecommunications services
2. Conduct online data processing and transaction processing services
3. Safe and orderly open basic telecommunications services
4. Carry out the pilot project of Internet data exchange
5. Construct international submarine optical cable and landing point, and establish international communication gateway

2 Free Trade Port“6+1+4” System Design

1 Industry System

Modern industrial system

Hainan will put more effort into developing tourism, modern services and high-tech industries, laying a solid foundation for the real economy to strengthen industrial competitiveness.

4 Rules

Taxation system

An internationally competitive taxation system will be established

Policy examples

Hainan Free Trade Port will implement:

- Zero tariffs.
- Low tax rate.
- Simplified taxation system.
- Strong rule of law.

Rule of law

A system of rule of law for the free trade port will be established in a bid to create an world-leading rule-of-law environment.

Policy examples

Based on the actual development of free trade port construction laws and regulations

Social governance

Efforts will also be made to advance the reform of government institutions and the transformation of government functions, said the master plan, encouraging the application of blockchain and other technologies in the modernization of the governance system and capacity.

Policy examples

Will give industry organizations greater autonomy

Risk prevention and control system

Effective measures will be rolled out and implemented to forestall and defuse risks in fields including trade, investment, finance, data flow, ecology and public health, in a targeted manner.

Policy examples

Hainan Free Trade Port will authorize Hainan to approve the layout adjustment of cultivated land, permanent basic farmland, forest land and construction land

3 Early Arrangements of Hainan Free Trade Port

Strengthen the Establishment of Special Customs Supervision Zones

Policy Explanation

Feature “ **free flow through the first line and efficient control at the second line**” .
Implement a **policy of origin**: for encouraged industries, processing value added in Hainan over 30% (inclusive) into the Mainland will be exempted from import duties.

Implement Zero-tariff Policy on Certain Imported Goods

Policy Explanation

In 2020, Hainan Free Trade Port will implement three Positive lists of zero-tariff management system and one Negative list of zero-tariff management system .

Positive list of zero-tariff management system

- Ships, aircrafts, other means of transport and yachts .
- Raw materials imported for production within Hainan, or for processing trade of which final products would be exported to oversea.
- Imported goods consumed by residents of Hainan.

Negative list of zero-tariff management system

- Production equipment imported by enterprises for own use.

In 2025, Hainan will fully exempt tariff, VAT and sale tax.

Reduce Restrictions on Cross-border Trade in Service

Policy Explanation

Hainan Free Trade Port will increase the tax allowance for outlying islands to 100,000 yuan per person per year;
Hainan Free Trade Port will expand the types of duty-free goods.

3 Early Arrangements of Hainan Free Trade Port

Reduce restrictions on cross-border service trade

Policy Explanation

Hainan Free Trade Port will formulate and issue a **negative list of cross-border service trade** in Hainan Free Trade Port;
Hainan Free Trade Port will grant **national treatment to overseas service providers**.

Implement the “Most Simplified Approval” Investment Management System

Policy Explanation

Hainan Free Trade Port will formulate and release:

1. **Special list for Hainan Free Trade Port to relax market access;**
2. **Negative list for foreign investment access.**

Apply a More Convenient Visa-free Entry Policy

Policy Explanation

Hainan Free Trade Port will apply more **visa-free entry policies**, including:

1. Open up more visa-free application channels to foreigners including self-declaration and invitation and reception by local entities;
2. Relax restrictions on foreigner’s application for visa-free entry;
3. Apply the 15-day visa-free stay policy to foreign tourist groups traveling by cruise ships.

3 Early Arrangements of Hainan Free Trade Port

Apply a More Open Shipping Policy

Policy Explanation

Hainan Free Trade Port will open more **shipping policies**, including:

1. Establish Yangpu-Port-of-China as the port of registry;
2. Remove the limitation on foreign shareholding proportion for ship registration body;
3. Domestically built ships registered at Yangpu-Port-of-China and engaged in international shipping are entitled to export tax rebate as in the situation of export;
4. Domestic ships with both domestic and foreign trade goods on board which transit at Yangpu Port are allowed to refuel with bonded oil required for the voyage.

Apply a More Open Policy on Air Transportation

Policy Explanation

Hainan Free Trade Port will open more **air transportation policies**, including:

1. Promote the fifth freedom right necessary for building the Hainan Free Trade Port in accordance with China's air transportation policies. Support Hainan in trial implementation of the seventh air freedom;
2. Support airline companies with Hainan as their core base to expand international flight routes;
3. Allow both inbound and outbound flights to refuel with bonded aviation oil.

Facilitate Cross-border Data Transfers

Policy Explanation

Launch pilot projects on security management of cross-border data transfers to explore and develop a convenient and secure cross-border data transfer mechanism within the framework of national security management system for cross-border data transfers.

3 Early Arrangements of Hainan Free Trade Port

Optimize Taxation Policy Arrangement

Policy Explanation

Hainan Free Trade Port will apply **lower tax rate rules**, including:

1. For encouraged industries, enterprises registered in Hainan Free Trade Port that have a practical operational record are entitled to a reduced corporate tax rate of 15%;
2. For tourism, modern service and high-tech industries, enterprises established in Hainan Free Trade Port are entitled to corporate tax exemption for income from newly increased overseas direct investment before year 2025;
3. Capital expenditures that meet certain requirements are allowed to be fully deducted from the taxable income or to be depreciated and amortized at an accelerated speed in the current accounting period;
4. High-end talents and highly-demanded talents employed in Hainan Free Trade Port are entitled to the personal income tax rate of 15%.
5. Before 2035, a 15% corporate income tax will be fully implemented, and personal income tax will be levied at three progressive rates of 3%, 10%, and 15%.

Be Fully Authorized by Law

Policy Explanation

Polices and measures in the arrangements that require adjustment of existing laws and regulations should be implemented after the authorization by the National People's Congress and its standing committee or the State Council. Roll out working procedures for streamlining and adjusting existing laws or regulations to put them into effect as soon as possible. Authorize Hainan to formulate the free trade port's regulations on business registration and deregistration, bankruptcy, fair competition, expropriation and requisition. Speed up the roll-out of Hainan Free Trade Port Law

22. Build a national base featuring China's technology blockchain and industrial innovation.
23. Build a pilot zone for cruise tourism.
24. Build a pilot zone for reform, development, and innovation of the yacht industry.
25. Build Hainan into an International Design Island.
26. Build a national sino-foreign culture and trade exchange base.
27. Replace pre-audit with post-audit for the banking sector on authenticity review of cross-border and new international trade.
28. Remove restrictions on overseas ship and aircraft financing.
29. Decentralize the registration management of foreign debts issued by enterprises to Hainan.
30. Expand the scope of cross-border asset transfer.

4 Sixty Key Policies for Foreign Investments

31. Allow enterprises listed overseas to handle foreign exchange registration directly at banks.
32. Support to develop cross-border medical insurance products in cooperation with overseas institutions.
33. Support the construction of trading venues for international energy, shipping, property rights, and equity stakes.
34. Enable non-residents to participate in trading and fund settlement at trading venues.
35. Develop over-the-counter (OTC) derivatives services.
36. Conduct cross-border asset management services.
37. Issue Hainan provincial bonds globally.
38. Open up value-added telecommunications services.
39. Conduct services of online data processing and transaction processing.
40. Open up basic telecommunications services in a safe and orderly fashion.
41. Conduct the International Internet Data Interaction Pilot Project.
42. Conduct the negative list of cross-border trade in services for Hainan Free Trade Port.
43. Grant enterprises to get access to the market with a prior commitment.
44. Conduct the special list of market access to the Hainan Free Trade Port.
45. Conduct the negative list of foreign investment access to the Hainan Free Trade Port.
46. Implement a more convenient visa-free entry policy.
47. Conduct a negative list management system on the issuance of work permits for foreign employees.
48. Allow flights in and out of Hainan to refuel with bonded aviation fuel.
49. Allow ships (those engaged in domestic and foreign trade) that transit at Yangpu Port of China to refuel with bonded oil.
50. Allow overseas high-level universities and vocational colleges specialized in science, engineering, agriculture and medicine to open branch schools independently in Hainan.
51. Treat domestic and foreign enterprises as equals in government procurement.
52. Salary ranges employed as main indices to evaluate talents.
53. Permit foreign personnel to serve as legal representatives in legal bodies, public institutions, and state-owned enterprises.
54. Prioritize the support of listing Chinese enterprises overseas.
55. Expand air traffic rights, including the Fifth Freedom and Seventh Freedom.
56. Authorize the Hainan government to manage and adjust the use of cultivated land, permanent basic farmland, forestland, and land for construction.
57. Grant greater autonomy to various industry organizations.
58. Formulate laws and regulations based on the reality of Hainan's free trade port construction.
59. Raise the quota for offshore duty-free shopping to RMB 100,000 per person per year and expand the categories of duty-free products.
60. Adopt an import & export management system featuring "free flow through the first line and efficient control at the second line" in Yangpu Bonded Port Area and other qualified zones.

3. Industry Guidance

- 1 Hainan's Leading Industry
- 2 Industrial investment opportunities in Hainan Free Trade Port

3

1 Hainan's Leading Industry

Hainan will implement the strategic deployment of the overall plan of Hainan Free Trade Port, foster and develop an open eco-service industry system with tourism, modern service industry and high-tech industry as its core. In order to change Hainan's existing industrial structure and achieve high-quality industrial development.

- Hainan is China's only tropical island province with unique advantages. Tourism has always been the mainstay industry of Hainan Province, which has become China's preferred place for leisure tourism, serving a large number of domestic and foreign tourists each year.

- Hainan Free Trade Port, as China's frontier region for opening up, will play a leading role in the system innovation of modern service industry. In 2019, the value added of Hainan's modern service industry reached 141.66 billion yuan, up 8.7% YoY, contributing 40% to GDP growth, which has become a major force driving economic growth.

- With the construction of Free Trade Port, Hainan has gathered a large number of innovative elements, and its high-tech industry development environment is superior. In 2019, Hainan high-tech enterprises reached 566, up 48.6% YoY. High-tech industry becomes a new potential, and has gradually become the growth engine of Hainan's modern economic system.

1.1 Tourism

Development Status Quo

- Tourism, as a mainstay industry in Hainan, is entering a period of high-speed development.
- In 2019, Hainan Province achieved total tourism revenue of 105 billion yuan, up 11% YoY, and the value added of the tourism industry increased by 10% YoY.
- Received **83.14 million** domestic and foreign tourists, up **9%** YoY.
- Received **1.42 million** inbound visitors, up **12%** YoY.

Development Advantage

▪ Unique tourism resources

Hainan is the only tropical island province in China, with largest marine area, many kinds of tourism resources, and high quality typical tropical island scenery.

▪ Islands tax exemption policy

Hainan is the only province that can enjoy duty-free shopping without going abroad with the world's largest duty-free shop, and price about 15%-35% cheaper after tax exemption.

▪ Highest high-end hotel density

High-end resort hotels are most densely distributed in Hainan in China, with 78 internationally renowned hotel management groups and 94 international brand hotels.

▪ 59 countries visa-free policy

Citizens in the 59-nation list can enter Hainan visa-free. There was more than 470,000 visa-free arrivals in 2019, up 33% YoY, bringing a large number of international visitors.

New Investment Opportunities for free trade port investment

Hainan will further open up and develop tourism, actively cultivating new tourism business and new hot spots, enhancing the level of high-end tourism consumption, and promoting the upgrading of tourism quality.

01

Travel Shopping

- More open and convenient off-island duty-free shopping policy to be implemented.

02

Health Tourism

- Promote the deep integration of tourism and sports and elderly care.

03

Medical Tourism

- With Boao Lecheng International Medical Tourism Advance Zone "National Nine" Policy, expanding the Opening up of medical fields.

04

Cultural Tourism

- Develop animation games, network culture, digital content and other emerging cultural consumption.

04

Cruise home port construction

- Promote the linkage between the cruise economy and sightseeing, enabling mutual promote.

05

Cruise Yacht Tourism

- To build a comprehensive service platform for yacht tourism and open up the supervision of yacht leasing.

1.2 Modern Services

Development Status Quo

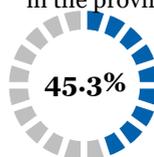

- The modern service industry plays an important role, contributes the most to the economic growth of the province, and is the main force to stimulate social employment.
- In 2019, the value added of Hainan's modern service industry reached 141.66 billion yuan, up 8.7% YoY, contributing 40% to GDP growth, driving GDP growth of 2.3 % in the province. The entity of the modern service industry market is 746,000, up 21.7% YOY.

Development Direction

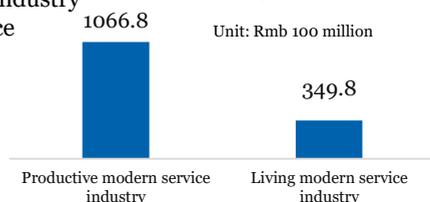

Seize the historical opportunity and lay out the diversified field

- The construction of free trade port brings Hainan a historical opportunity to develop modern service industry. Hainan will play a leading role in the innovation of service industry system and become an important window for China's modern service industry to open to the world.
- Hainan's modern service industry will transform into high value-added, high-level, knowledge-based producer service and high-quality customer service industry, forming a number of characteristic industries.

Modern services account for the ratio of service industry in the province

The composition of modern service industry in Hainan

New opportunities for free trade port investment

- Further relax restrictions on foreign investment access and attract headquarters of multinational companies.
- To be the first in the country to achieve comprehensive opening to the outside world with open schools to build Hainan International Education Innovation Island.
- Build Hainan International Design Island and regional international exhibition center, and expand the opening of professional service industry to the outside world.
- Build a marine service system with international competitiveness.
- Build a national foreign cultural trade base.

Haikou, Sanya and Yangpu will be the key areas to build a modern service economic center with regional influence.

1.3 High Tech Industry

Development Status Quo

- In 2019, Hainan's high-tech industry realized added value of 26.21 billion yuan, up 4.5% YoY. The number of high-tech enterprises reached 566, up 48.6% YoY, and the operating income was 74.02 billion yuan. The high-tech industry has gradually become the new engine of Hainan's modern economic system.

New opportunities for free trade port investment

- **Free trade port preferential tax system.** Hainan free trade port will implement a "zero tariff, low tax rate and simple tax system" similar to its excellent counterparts, such as Hong Kong, Singapore and other world-famous free trade ports.
- **Cross border investment and financing and capital flow facilitation.** The free trade port will implement a more open foreign investment and foreign exchange management system and innovate the government management mode.
- **Facilitate the circulation of information and information.** The visa-free policy for people from 59 countries and the convenient cross-border flow of data make it easier for high-tech talents to enter and leave Hainan, and the patented technology creation environment is optimized.
- **The implementation of headquarters economic policy will reduce the investment cost of high-tech enterprises.** Hainan is adjusting its headquarters economic policy. It is expected that the incentive standard for headquarters enterprises will be greatly improved, and the attraction for R & D centers of internationally renowned enterprises will be further strengthened.

2.1 Duty Free Consumer Goods

Development Status Quo

▪ In 2019, Hainan Islands' sales of tax-free goods **reached 18.119 million**, the total sales amounted to **13.49 billion** yuan, and the number of shoppers exceeded **3.762 million**, an increase of **37.3%**, **38.5%** and **35%** respectively over the same period last year.

▪ There are four duty-free shops including Sanya Haitang Bay duty-free shop, Haikou Meilan Airport duty-free shop, Haikou Riyue Plaza duty-free shop and Qionghai Boao Dongyu Island duty-free shop, which sells a variety of high-end duty-free goods to **80 million** tourists worldwide every year.

Development Advantage

China's only island tax exemption policy

Hainan is the only province in China that can enjoy duty-free shopping without going abroad, and it has an absolute advantage in the country's large-scale retail industry at a price much lower than the domestic market and rich products.

Perfect supporting services

Hainan will host a global new product launch event, international fashion week (SS/AW), combined with a fashion week show to open a showroom to provide global buyers and retailers with new channels and platforms for purchasing and ordering.

Development Direction

- Focus on "first store, first brand, first show, first launch" to create a global tax-free consumption center, a global fashion trend information dissemination center, and a new landmark of global fashion consumption.
- Focus on supporting the following organizations to open the first duty-free flagship store and regional headquarters:
 - Internationally renowned luxury brands
 - Local and foreign independent designer brands
 - International master studio
 - Art research institute
 - Fashion marketing agency
 - High-end retail department store

New opportunities for free trade port investment

Preferential tax-free policy support

Hainan will add duty-free consumption venues and market entities, increase the duty-free shopping quota to 100,000 yuan per person per year, expand the types of duty-free goods, and allow duty-free purchases of imported goods consumed by residents on the island by 2025. Issued 59 countries visa exemption, changed "island tax exemption" to "shore tax exemption", simplified the procedures and procedures for purchasing tax-free goods, increased the threshold for postal tax and reduced the postal tax rate, etc., and opened the world's highest level of open form. Gradually realize the "sealing operation" mode of "zero tariffs across the island" to provide brands with a highly free and convenient business environment.

Considerable consumption flow

Hainan will simultaneously develop high-end cultural and sports and tourism industries, introduce world-class boutique theme parks, large-scale international exhibitions and festival events, accelerate the cultivation of cruise yachts, cultural sports, exhibitions, recreation, night tourism and other high-quality tourism products. It will continue to deliver consumers with strong purchasing power to the high-end consumer goods industry.

Smart upgrades in the business district

Hainan will fully optimize the technical standards of e-commerce transactions, payment, logistics, foreign exchange settlement, simplify the customs clearance process and supervision model, build a "smart business circle", and further expand sales channels.

2.2 Cruise Yacht

Development Status Quo

Cruise Industry

- Hainan has built two cruise ports in Sanya and Haikou, and has four cruise berths, which can accommodate a maximum of 150,000-ton cruise ships.
- From 2012 to 2019, Hainan received a total of 1115 international cruises and 840,000 cruise tourists.

Yacht industry

- Hainan has built and operated 15 yacht marinas, with 2568 berths, 638 registered yachts, and about 60 yacht clubs and related companies, covering manufacturing, repair and maintenance, training, sales, financial insurance, operating services and other industries.
- In 2019, the total number of yachts in the province exceeded 96,300, and the number of sailings was 29,136, up 70.9% YoY. During the National Day Golden Week Holiday, yachts sailed 3,404 times, an increase of 57.5%.
- Yacht tourism is moving from "niche high-end" to "public leisure".

Development Advantage

- Imports of cruise ships and yachts are exempt from customs duties, import value-added tax and consumption tax.
- The only province in China that allows yacht lease.
- Sanya will build the largest cruise home port in the world.

Development Direction

- The implementation of a zero-tariff positive list management for yachts imported on the island.
- Support the development of regional headquarters for cruise and yacht related companies.
- Encourage international cruise companies to set up international operations and settlement centers, focusing on the development of cruise economy such as cruise maintenance, ship supply, ship registration, financial insurance, and marketing.
- Focus on supporting the development of yacht trading, display, leasing, design, manufacturing, maintenance, maintenance, driving training and other industries, and set up Hainan International Yacht Trading Center.

New opportunities for free trade port investment

- Carry out cruise line development cooperation
- Launch cruise infrastructure cooperation
- Carry out cruise supply cooperation
- Promote the free travel of Qiong Hong Kong and Macao yachts
- Promoting the development of new yacht lease
- Development of a number of yacht tourist attractions
- Cooperative development of the entire yacht industry chain

2.3 Culture and Sports

Development Status Quo

- The integration of sports and culture has become the general trend. As an important embodiment of consumption upgrading, sports consumption will become a key area for the development of modern service industry in Hainan Province.
- At present, Hainan Province has successfully held many large-scale activities and events. As an important growth point of economic development, culture and sports have increasingly become the leading industrial form.

- Successfully held many large-scale cultural and sports activities:

Hainan International Film Festival	Sanya International Music Festival
FIA electric formula Championship Sanya	Strawberry Music Festival

- Successfully cultivate 5 independent brand international events:

Hainan International Road Cycling Race
South Island International Regatta
Hainan (Sanya) International Marathon
Hainan Golf Open
International Tourism Island windsurfing Grand Prix

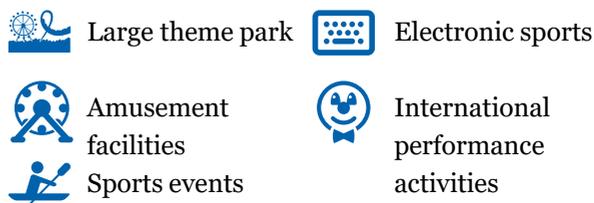

- The original British Musical "cat" performed eight times during the National Day Holiday.
- Successfully bid for the 6th Asian Beach Games in 2020.

Development Direction

Investment Fields

New opportunities for free trade port investment

Further relax restrictions on foreign investment access

For example, foreign investment is allowed to be piloted in Hainan to set up a performance brokerage agency. Foreign investment is allowed to set up a performance venue operating unit in an approved cultural tourism industry cluster. Foreign-funded cultural and artistic performance groups (controlled by the Chinese party) are allowed. Tourism hotels are allowed to receive overseas TV channels approved by the country.

Industrial investment environment is improving

The construction of Hainan Free Trade Port has attracted a large number of outstanding talents in related fields for Hainan Province. In addition, the Hainan Provincial Government has established the Hainan Cultural and Sports Industry Development Fund to continuously optimize the investment environment.

In the future, we will vigorously make policy breakthroughs in the field of sports

Hainan will introduce policies to strongly support the development of the e-sports industry and the development of inbound golf tourism, and promote the high-quality and rapid development of the cultural and sports industry to achieve new results.

2.4 Education Industry

Development Status Quo

- The construction of the international education industry in Hainan Free Trade Zone Port provides a huge development advantage.
- At present, Hainan is actively promoting the introduction of a batch of Sino-foreign cooperative education projects such as Coventry University in the United Kingdom, Michigan State University in the United States, Lisbon University in Portugal, etc. settled in Lingshui Rian International Education Innovation Pilot Zone.
- Education and its related industries have developed rapidly, the number of private schools has grown rapidly, the scale of the education and training industry has accelerated, and the development of Internet education has entered a fast track.

Key Park

Yangpu Economic Development Zone

Relying on Yangpu Lingang petrochemical industry base and Sino German Industrial Park, introduce petrochemical and high tech Universities.

Lingshui Lian International Education Innovation Experimental Area

Gathering platform for Chinese foreign cooperation in running first-class universities, international education innovation and development demonstration area, international talent training planning area.

Wenchang International Space City

Introduce first-class institutions of higher learning and scientific research institutions of aerospace to build international university of Aeronautics and Astronautics.

Boao Lecheng International Medical Tourism pilot area

Introducing Chinese foreign cooperation in running medical schools and constructing a new mode of coordinated development of medical teaching, research and production.

Development Direction

- Support first-class universities abroad to carry out Sino-foreign cooperative education in Hainan.
- Establish international high schools and international kindergartens and implement international education.
- Overseas engineering universities and vocational colleges run independently in Hainan.
- Overseas high-level enterprises run schools solely in Hainan.
- Establishment of an independent legal person medical and health Sino-foreign cooperatively-run school.
- International organizations, international educational institutions, and large international education companies set up headquarters, regional headquarters, or research centers in Hainan, etc.

New opportunities for free trade port investment

- Hainan will establish a national education innovation development pilot area, improve the new mechanism of opening up schools, and steadily promote the construction of Hainan International Education Innovation Island policy support:
 - Preferential provision of school land by means of transfer or transfer.
 - The standard of tuition fees shall be determined by the school independently according to the cost of running the school.
 - Zero tariff for teaching and research equipment and instruments, imported equipment and materials for infrastructure construction.

2.5 Round the Island Tourism Road Station

Project Positioning

- The positioning of the tourism road around the island is: Ecological Road, scenic road, cultural road, wisdom road and happiness road.
- Break through the traditional traffic function and implant tourism, entertainment, leisure, consumption and other elements.
- The road is the "chain" and the post station is the "Pearl". It has been built into a landmark project and a masterpiece of tourism in the whole region.

Project Planning

1 Highway as line: connecting 12 cities and counties

- A total length of 1429 kilometers
- Main line 999 kilometers
- Newly rebuilt section 442 kilometers
- The rest use existing roads

2 Road station as pearl: building 40 excellent stations

- Characteristic architectural style
- Diversified business forms
- Focus on eco-friendly issue and cross distribution of different posts

"Pearl necklace" overall spatial layout

6 business forms of post station investment promotion

The Round the Island Tourism Road Post station is a comprehensive tourism service facility, integrating the functions of **"tourism service base, featured tourism products and regional integration platform"**, building a round island tourism consumption platform, building a tourism product system with Hainan coastal characteristics, **attracting one third of the high-end consumption tourists** of the whole island in the future, focusing on six major business types.

Theme Parks

Resort Hotel

Museum and History

Entertainments

Commercial Shopping

Food and Beverage

2.6 Shipping Vessel

Development Status Quo

- Hainan has formed a pattern of **"four directions, five ports and many points"** with Haikou Port in the north, Yangpu Port and Basuo port in the west, Sanya port in the South and Qinglan port in the East, with 147 productive berths, including 73 deep-water berths of 10000 tons and above.
- Hainan has a large number of port hinterland for industrial development, and a large number of high-quality ports combined with a large area of high-quality port hinterland are scarce resources in the country.

Development Advantage

Geographical advantages

- Located in the south of China, Hainan is an indispensable place for travel among Asia, Oceania and Southeast Asia. It is the forefront of maritime exchanges among China, ASEAN, South Asia, and Middle Eastern coastal countries. It is an important fulcrum of the "Belt and Road" strategy.

Rich marine resources

- The waters around Hainan are rich in oil and gas resources. Various engineering vessel leasing and service providers will gain more development opportunities with the development of oil and gas resources in the South China Sea.

Vast market hinterland

- Hainan is backed by the two major markets of mainland China and Southeast Asia. The entry of international shipping companies in Hainan will help to further enhance the company's global layout.

Development Direction

- Build an international shipping hub with strong service functions and radiation capabilities, continuously improve the global shipping resource allocation capabilities, and facilitate the realization of free transportation convenience.
- Attract more international shipping companies to register in Hainan, and promote the return of Chinese-funded "convenience flag" ships.
- Attract more international ship management companies to settle, setting a benchmark for the modern service industry of Hainan Free Trade Port.
- Focus on the development of shipping service industry chains such as ship financing, shipping insurance and ship overhaul in free trade ports, and attract more high-end shipping elements to gather.

New opportunities for free trade port investment

- Build a "China Yangpu Port" registry port, simplify the inspection process, gradually release the statutory inspection of ships, establish the Hainan Free Trade Port International Ship Registration Center, abolish the restrictions on the foreign capital ratio of ship registration entities, remove the restrictions on overseas financing of ships, and explore the use of insurance Replacing the deposit will help international shipping companies to register ships in Hainan and carry out related businesses.
- Ships built within the territory registered in "Yangpu Port of China" and engaged in international transportation are deemed to be exported and tax refunds will be granted. For container cargo that meets the conditions and transited through Yangpu transit, the tax rebate policy at the port of departure will be tried.
- For domestic ships that use Yangpu Port as a transit port for domestic and foreign trade on the same ship, allow them to refill the bonded oil required for the voyage, and implement the export tax rebate policy for the local production of fuel oil required for the voyage. Improve the competitive advantage of shipping companies.

2.7 Aviation industry

Development status

- **Hainan is a major aviation province.** In 2019, 4 airports in Hainan completed passenger throughput of over **45,011,300** ranking 12th among the country.
- Hainan plans to open more than **100 international routes** within two to three years, and promote air connectivity with countries and regions along the “Belt and Road” .

Advantages

- Hainan has obvious location advantages, as China’s southernmost open gateway, and it is also an important node of the “21st Century Maritime Silk Road”. In the future, it can form a “MI”-shaped international aviation network centered on Haikou.
- As of the end of October 2019, Hainan Province has operated more than **500** domestic and foreign routes, including **96** international and regional routes.
- The central government supports Hainan’s development of the aviation industry, and Hainan has been determined to be the pilot of the fifth freedom rights; aircraft imports are exempt from customs duties.

Direction

Opportunity

Aircraft leasing

Air base of foreign Air Company

General aviation

Aviation maintenance

International aviation fuel trade

Business jet manufacturing and sales

Air rights

.....

New Investment Opportunities

- **The Civil Aviation Administration supports Hainan to increase the development of routes and flights to support the overall opening up.** The Civil Aviation Administration of China supports Hainan to optimize route network, strengthen connectivity with inland aviation hub airports, expand international route coverage, and support foreign airlines and travel agencies to legally participate in Hainan Airlines enterprises, etc.
- **Hainan will speed up the construction, reconstruction and expansion of the airport.** Accelerate the construction progress of the second phase expansion project of Haikou Airport, and simultaneously carry out the preliminary research work of Sanya New Airport, Danzhou Airport and Dongfang Airport.
- **The central government supports Hainan to attract social capital to participate in infrastructure construction.** Encourage social capital to participate in airport construction and operation, general aviation, aviation fuel security, aircraft maintenance services and other fields. Bonded jet fuel is allowed for flights from Hainan to and from the island.
- **Expansion of the fifth freedom rights and pilot opening of the seventh freedom rights.**

2.8 Financial Lease

Development Status

- Focusing on the financial leasing business of aircrafts and ships, Hainan has increased investment attraction.
- Multiple financial leasing enterprises have clearly established special project companies (SPV) in Hainan to carry out business.
- Hainan's first financial leasing business of ship has landed in Yangpu in 2020.

Advantages

Policy

- No minimum registered capital limit for financial leasing companies to set up subsidiaries in Hainan.

Market

- Potential market demand for financial leasing in the fields of electric power, transportation, elderly-care, medical treatment and high-end manufacturing, etc.

Direction

Investment Direction

Aircraft Financial Leasing

Cruise and Yacht Financial Leasing

Ship Financial Leasing
.....

High-end Medical Equipment Financial Leasing

New Investment Opportunities

The system “Zero tariff, low tax rate, simple tax system” will be implemented

- Hainan Free Trade Port will exempt from import duties on conveyance and manufacturing facilities, keep the effective tax rate equal to or even lower than that of Hong Kong and Singapore, greatly reducing the tax cost of financial leasing enterprises.

Customs remote supervision of financial leasing industry will speed up the implementation of related policies

- There is no policy barrier for the customs to supervise the financial leasing industry in different places. Hainan will formulate detailed rules for implementation to speed up the implementation of related policies.

Implementation of open and convenient foreign exchange management system

- A more open foreign exchange management system will reduce the cost of foreign exchange conversion for financial leasing enterprises and provide guarantee for enterprises to dispose of assets globally.

2.9 Offshore Trade

Development Status

- Hainan has made great efforts to develop new forms of foreign trade, explored and implemented measures such as the facilitation of foreign exchange receipts and payments, and established an offshore trade tax system in line with international standards.
- Take advantage of location, policy, environment, port to build characteristic offshore trade and further improve the level of opening up.

Advantages

Overall advantage

- The pilot free trade zone has the advantages of wide range of pilot areas, multiple pilot areas, multiple pilot bases and strong pilot synergy, that will help to improve the level of opening up and develop offshore trade.

Geographical advantage

- Hainan is surrounded by good ports, and goods can be shipped to Hainan and then transported to the whole country. The location advantage of Hainan from logistics center to offshore trade center is obvious.

Direction

The establishment of National Offshore Trade Pilot Area

- **Logistics and customs supervision:** “One window” business processing procedure will be launched to realize information interaction between departments.
- **International shipping:** Yangpu Port, as the international transfer port, will realize the tax refund at the port of departure and free circulation of goods in pilot area.
- **International Energy Trade:** Working on the approval of blending of bonded fuel oil to meet the market of ASEAN countries
- Promote liberalization and investment facilitation policies in trade, finance, local currency settlement and other fields.

Make “one center, five agglomeration”

Offshore Finance/Trade Center

agglomeration of transaction elements

agglomeration of listed companies

agglomeration of large capital management

agglomeration of insurance industry

agglomeration of financial conference

New Investment Opportunities

- **Simpler company registration.** Further open up the registration of offshore companies, simplify the registration procedures, gradually improve the restrictions of foreign personnel register in China, and the proportion of foreign investment.
- **Preferential policies.** Implement more preferential tax policies between individuals and enterprises, gradually liberalize the cross-border flow of foreign exchange funds, and realize the international marketization of interest rates of deposits and loans in offshore areas.
- **Actively introduce high-end talents.** Especially offshore trade service talents.

2.10 Modern finance

Development Status

- The People's Government of Hainan Province attached great importance to the planning and development of modern finance industry, proposed modern finance industry should be cultivated as an **important pillar industry in Hainan**.
- Hainan Free Trade Zone has achieved multiple financial innovations in the past two years since its establishment, such as officially launching the free trade account (FT account) system, exploring the intellectual property securitization, and issuing the first asset-backed securities of state-owned land contract fund, etc.

Advantages

Policy advantage

- Under the background of free trade port construction, relying on Hainan's advantages in location, policy, environment and port, and centering on the continuous opening and innovation of financial field, Hainan will usher in new historical opportunities to promote the development of cross-border finance and trade finance.

Location advantage

- Hainan can actively strive for the radiation and promotion of financial centers of Hong kong, Guangzhou and Shenzhen to the financial development of Hainan, promoting the development of modern financial industry.

Direction

Investment opportunities

Internet Finance

Inclusive Finance

Cross border Finance

Construction of Factor Market

Marine Finance

.....

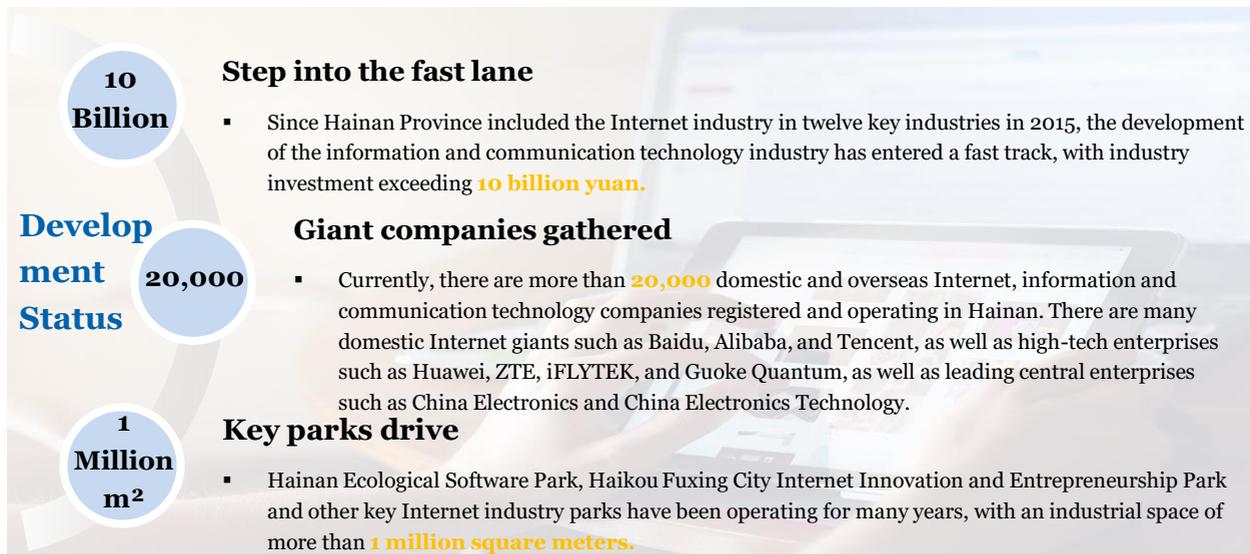

New Investment Opportunities

- **Policy support to accelerate financial innovation.** The central government encourages Hainan to develop Internet finance, maritime finance, cross-border finance and other innovative finance, and encourages domestic and foreign financial institutions to settle in Hainan.
- **Further deepen foreign cooperation and development.** Hainan will increase its opening-up and cooperation and exchanges with other countries and introduce overseas financial institutions. Hainan encourages overseas financial capital to set up various innovative institutions in Hainan, exploring equity cooperation between overseas investors and local legal person financial institutions, and supporting international investors to participate in local financial factor market transactions.
- **Financial support policies have been continuously improved.** The policy focuses on preferential finance, innovative finance and Internet finance, and rewards financial innovation such as new financial subjects, new business forms and new models.

2.11 Information communication technology

Advantages

- Clear industry development positioning
- Strong industry support

- The whole island of Hainan was included in the pilot scope of cross-border e-commerce retail imports, which further stimulated the vitality of the Hainan Internet industry. Preferential policies of relevant key industrial parks help the development of enterprises.

Direction

Investment Opportunities

- Expand the opening up of the data field, carry out international Internet data exchange pilots, set up international communication gateways, and provide a convenient environment for domestic and foreign Internet companies to develop international business.
- Expand the opening up of communication resources and services, open up value-added telecommunications services, gradually remove restrictions on foreign equity ratios, allow online data processing and transaction processing services, open up basic telecommunications services, and provide broad investment space for domestic and foreign companies.

2.12 Advanced low-carbon manufacturing

Development Status

- Low-carbon manufacturing is one of the twelve key industries in Hainan Province. Agricultural and sideline products processing, pharmaceutical, automobile and electrical machinery manufacturing are important sectors of low-carbon manufacturing in Hainan.
- Among the top 100 private enterprises in Hainan Province in 2019, 59 green and low-carbon industrial enterprises are shortlisted, and nearly half of the province's high-tech enterprises are low-carbon manufacturing.

Advantages

Resource

- Hainan is the only tropical province in my country with abundant resources, which can provide various production factors for the manufacturing industry.

Location

- Hainan is backed by two major markets in mainland China and Southeast Asia, and the manufacturing industry can meet the domestic and Southeast Asian product needs.

Port

- Yangpu Port and Basuo Port in the west of Hainan are natural deep-water ports, which is conducive to advanced low-carbon manufacturing to reduce logistics costs.

Policy

- Hainan will accelerate the reform of the ecological civilization system, implement the control of the total carbon emissions and incremental energy consumption, and expand the advanced manufacturing industry.

Investment Opportunities

Taxation system under the framework of free trade port policy

Competitive tax arrangements. Implement "zero-tariff" negative list management for production equipment imported by enterprises for self-use and for raw and auxiliary materials imported for use in production for self-use or production and processing activities in the "two-out" mode, For the encouraged industrial enterprises registered in Hainan Free Trade Port and substantively operating, the enterprise income tax is reduced by 15%.

Free and convenient cross-border circulation of various elements

In terms of free, convenient, and orderly cross-border flow of trade, investment, capital, personnel, and transportation, exploring and implementing new and more efficient opening measures will effectively promote Hainan's manufacturing to enter the international market.

Actively strive for the policy of origin

With reference to the policy of origin, for goods produced by encouraged industrial enterprises that do not contain imported materials or contain imported materials and are processed at the Hainan Free Trade Port with a value-added of more than 30% (inclusive), entry into the Mainland via the "second-line" will be exempt from import tariffs and increase "Created in Hainan".

2.13 Medicine Medical Technology

Development Status

- The medical and medical industry in Hainan Province is one of the key industries that the provincial government is striving to promote. The industry has started steadily and has grown rapidly. The overall development is showing a good development trend. The industry scale continues to expand, the characteristics continue to highlight, and the agglomeration pattern is initially formed.
- In 2018, Hainan's pharmaceutical industry completed the output value of enterprises above designated size of 23 billion yuan, an increase of approximately 20% year-on-year.

Advantages

Resource

- Hainan has the natural advantage of developing the medical and health industry. Hainan is rich in medicinal animal and plant resources. It is known as "Natural Medicine Depot" and "Hometown of Southern Medicine".

Policy

- The country has issued a series of policies to promote the development of the medical and medical technology industry, which provides a good policy environment for industrial development.

Brand

- Hainan's "healthy island" regional brand effect is significant, becoming the "ace" of Hainan's development of the health industry.

Direction

1st Development of Southern medicine, green health food, health food, planting and breeding, etc.

2nd Development of pharmaceuticals, health products, medical devices, new types of auxiliary materials and consumables with marine biopharmaceuticals and preparations as the focus.

3rd Development of health care services that focus on medical services, health tourism, health insurance, and rehabilitation focusing on climate therapy, special therapy, fitness and leisure, etc.

Investment Opportunities

- **Build a demonstration zone of high-quality, integrated and concentrated development.** Relying on the construction of Hainan Free Trade Port, Hainan will be built into a national health industry pilot test zone, a high-quality integration and development demonstration zone for health industry, an important strategic fulcrum of the "Belt and Road" initiative, and a global health and medical tourism destination.
- **The policy is unprecedented.** Hainan Free Trade Port will help Hainan to form an institutional high ground for the development of the pharmaceutical industry, such as adjustments in corporate income tax and personal income tax rates, to further reduce the cost and difficulty of pharmaceutical imports for pharmaceutical innovative teams and R&D companies, and promote the concentration of biotechnology industries; *The Implementation Plan for Supporting the Construction of the Boao Lecheng International Medical Tourism Pioneer Zone* has comprehensively "upgraded" the preferential policies of the Hainan Lecheng Pioneer Zone. Under the background of promoting the construction of the free trade port, the development of the Hainan health industry has ushered in unprecedented opportunities.

2.14 Oil & Gas Chemical

Development Status

Hainan has formed a relatively complete oil and gas industry chain integrating "exploration, development, processing, warehousing, pipeline transportation, and sales". Among them, Yangpu has formed 10 million tons of oil refining, 10 million cubic meters of oil and gas reserves, aromatic hydrocarbons, and polyester industries and chain, crude oil, refined oil, port logistics and other industrial supporting development. Oriental Lingang Industrial Park has formed a natural gas and methanol industrial chain, fine chemical, port logistics and other industrial supporting development.

Advantages

- The sea area is vast, rich in natural gas and oil resources, accounting for more than 1/3 of the total reserves of oil and gas resources in the country.

Resource

Location

Policy

- Hainan Free Trade Port Policy
- Processing value-added rules and other free trade port policies are first tested in Yangpu

- The closest petrochemical and oil and gas reserves to the South China Sea oil and gas resources and the Middle East Petroleum
- Radiating the two major petrochemical product markets around Northern Gulf and ASEAN

Direction

Oil and gas exploration

Oil and gas refining

Fine Chemicals

New material

Oil and gas reserves

- The downstream of the oil and gas chemical industry chain has broad development potential.** The oil and gas chemical industry chain is rich in downstream fields. The Yangpu 1 million ton ethylene project is under construction. It will also plan to introduce new oil refining and ethylene projects, which will bring a lot of investment opportunities to the downstream industry.
- Encourage well-known overseas companies to participate in the exploration and development of oil and gas resources in the South China Sea.** Eliminate the requirement that oil and gas exploration and development must be carried out by signing a product sharing contract model with an oil and gas company with foreign cooperation franchise approved by the Chinese government.
- Imported oil and gas exploration and chemical production equipment are exempt from tax.** Exemption of import tariffs, import value-added tax and consumption tax on imported production equipment for self-use by enterprises will effectively reduce production costs of enterprises.

Investment Opportunities

2.15 Deep Sea Technology

Development Status

- Hainan has a jurisdiction of approximately **2 million** square kilometres of sea area, and shoulders the important task of claiming jurisdiction over 2/3 of China. It is a veritable maritime province.
- Hainan's deep-sea technology industry is at the **initial stage** of development. As one of the future pillar industries nurtured by Hainan, the advancement of deep-sea technology is the prerequisite for the development of deep-sea industry. Currently, a deep-sea technology city has been established in Sanya.

Direction

Advantages

Location

- Hainan is the region closest to the deep sea in China. The water depth in most of the South China Sea exceeds 400 meters, with an average depth of 1,212 meters.

Resource

- The South China Sea seabed contains large amounts of metal minerals, oil and gas, and combustible ice resources.

Strategy

- With country's implementation of strategies such as maritime powers, Hainan will become the most important support and guarantee base for the development of resources in the South China Sea.

Fundamental

- The scientific research strength and talent reserve of research institutes made it possible to develop the deep-sea technology industry.

Investment Industry

Deep sea equipment

Marine Biomedicine

Deep sea materials

Marine ship

Deep Sea Communications

Marine Public Service

Investment Opportunities

- **Talent introduction policy support.** Hainan provides talent support policies for the introduction of deep-sea scientific and technological talents in terms of salary, child education, housing subsidies, achievement awards and entrepreneurial support, which will help attract talents from related companies to live and work in Hainan.
- **Platform construction service support.** Hainan will further actively promote the construction of science and technology platforms like the Deep Sea Institute of the Chinese Academy of Sciences and provide support in land support and policies. Similar platforms will become the output places for deep sea mineral exploration technology and oil and gas development and utilization technology research and development results, and will also provide related companies with technical cooperation, driving deep-sea industry development
- **The project leads industry support.** Hainan continues to support deep sea scientific and technological achievements industrialization projects, research and develop key common technologies, and develop core engineering equipment to provide related enterprises with marine technology service capabilities and help deep sea industry development

2.16 Tropical efficient agriculture

Development Status

- **Construction of Sanya Nanfan Science and Technology City:** based on Nanfan scientific research, seed industry technology as the core industry, and tropical agricultural science as the characteristic industry, construct the Nanfan Science and Technology City industrial system, and industrial cluster development.
- **Build a transit base for the introduction of global animal and plant germplasm resources:** build a transit base that integrates quarantine, reserve protection, industrial applications, and trade transactions.
- **Industrial development pattern:** the domestic leading enterprises such as the Sinochem and the China CITIC have been preliminarily established, and the top domestic scientific research teams such as the Hainan Seed Innovation Research Institute of the Chinese Academy of Sciences and the Chinese Academy of Agricultural Sciences and the Chinese Academy of Thermal Sciences, Chinese Academy of Water Sciences, Sanya Nanfan Industry-supported industrial development pattern.

Direction

By 2030, realize the development of "five modernizations"

- Crop Southern, Forest Plants and Flowers Southern, Animal Husbandry and Aquaculture Southern Propaganda Scientific Research

Fundamental Industry

Core Industry

Featured Industry

- Tropical crop technology, tropical agricultural service, tropical agricultural tourism

- Biological breeding technology
- Seed trade
- Seed industry technology intellectual property transactions

Industrialization

Specialization

Intensification

Marketization

Globalization

Investment Opportunities

Premium variety rewards

- 50% of the introduction cost
- Raising seedlings of high-quality and high-efficiency varieties

Talent start-up subsidies

- one-time subsidy of no more than 20 million yuan
- subsidies for rent-free venues or self-purchased houses

Loan subsidy

- Discounted subsidies at 50% of the benchmark interest rate of a single loan

Equipment subsidies

- Large research scientific instruments
- Seed industry agricultural related facilities
- Procurement of R&D equipment by scientific research platform

Contract R&D subsidies

- Cooperation with foreign research institutions
- High-tech enterprise R&D projects
- Conference and Exhibition Project
- Purchase of research results

2.17 Aerospace industry

Development Status

An important part of China's space map

- **With its unique location advantage, Hainan has become China's best satellite launch site.** Launching satellites near the quayside is already a consensus among space powers, such as the Cape Canaveral launch site in the United States. Hainan is the only region in China that has this condition.
- **Wenchang Space Launch Site is China's most competitive launch site for commercial space launches.** As the only low-altitude coastal launch site in China, Wenchang Aerospace Launch Site is responsible for a series of major aerospace projects such as deep space exploration, manned moon landing, and transportation between heaven and earth. It is China's most competitive launch site for commercial aerospace launches.

Direction

- Hainan will focus on the overall deployment of the free trade port strategy, build it into a major scientific and technological innovation base in China's aerospace industry, and create a strategic high ground for space technology innovation.
- Create a new pattern of aerospace, satellite, and remote sensing industries in Hainan with "Wenchang Space Launch in the North and Sanya Satellite Application in the South", and build a commercial aerospace industry chain.
- **Aerospace core industry:** key technology experiments, basic engineering technology research, infrastructure equipment research and development, production, aerospace technology application industry, innovative fusion technology and achievement transformation services.
- **"Aerospace +" expands and extends industries:** aerospace big data application services, smart Hainan, aerospace life sciences, science and education and training services, aerospace technology exhibitions and transactions, aerospace science and technology incubation, aerospace culture digital creative services, Aerospace tourism
- **Technology supporting industry:** new generation information industry, high-tech, new-type infrastructure construction.
- **Service supporting industries:** technological services, cultural creativity and literary services, business services, financial services, tourism services, and shared economy.

Investment Opportunities

- **Zero tariffs on space equipment.** In order to reduce the operating pressure of enterprises, Hainan will take the lead in realizing zero-tariff import and export of various commodities used in space equipment facilities. In addition, the "Hainan-1" satellite project has been included in the major scientific and technological plan of Hainan Province
- **Encourage foreign investment to participate in the construction of Wenchang International Space City**
- **The industrial service platform is constantly improved.** In the future, Hainan will build an open platform for the development of aerospace science and technology, promote the development of commercial aerospace and international cooperation in aerospace, and build a favourable environment for the development of the aerospace industry

2.18 Headquarters Economy

Development Status

- As my country's largest special economic zone, Hainan has become a key area of concern for domestic and foreign investors, and many large enterprise groups have a strong desire to enter Hainan to establish headquarters.
- In 2019, there were 33 headquarter enterprises identified by Hainan Province, with total assets of 577 billion yuan and paid tax of 2.388 billion yuan.

Advantages

Transportation hub advantage

Hainan Province is an indispensable place for travel between Asia and Oceania and Southeast Asia. It is the forefront of maritime exchanges between China and ASEAN, South Asia, and coastal countries in the Middle East. It is an important fulcrum of the “Belt and Road” strategy.

Rich marine resources

The waters around Hainan are rich in oil and gas resources, and various engineering vessel leasing and service providers will gain more development opportunities with the development of oil and gas resources in the South China Sea.

Hinterland market is vast

Hainan is backed by the two major markets of mainland China and Southeast Asia, and the entry of international shipping companies in Hainan will help to further enhance the company's global layout.

Investment Opportunities

The international environment of the institutional environment

- Hainan Free Trade Port predicts that the actual tax rate will be benchmarked against Hong Kong and Singapore, which will greatly reduce the corporate income tax rate and personal income tax rate of high-end talents in the headquarters, and effectively attract the gathering of headquarters companies and high-end talents.

Support has been greatly improved

- In the process of building a free trade port, Hainan will further improve the headquarter economic recognition standard and policy system, and it is expected that the reward standard for qualified headquarter enterprises will be greatly improved.

People are more free to enter and exit

- On the basis of the current 59 countries visa-free, Hainan is exploring the implementation of more convenient and free personnel entry and exit policies, which will provide international talent support for the development of headquarters companies in Hainan.

Supporting services are more complete

- Hainan Province will take advantage of the free trade port to actively introduce well-known professional service organizations such as accounting, law, management consulting, training, etc. at home and abroad to provide headquarters companies with better quality services.

Direction

2 major headquarters bases

- Haikou Jiangdong New District
- Sanya Headquarters Economy and CBD

Attracting international headquarters to settle

- International headquarters, business headquarters, regional headquarters and operation headquarters of multinational companies such as the world's top 500
- International business headquarters of central enterprises and large private enterprises
- Regional headquarters of international organizations (institutions)...

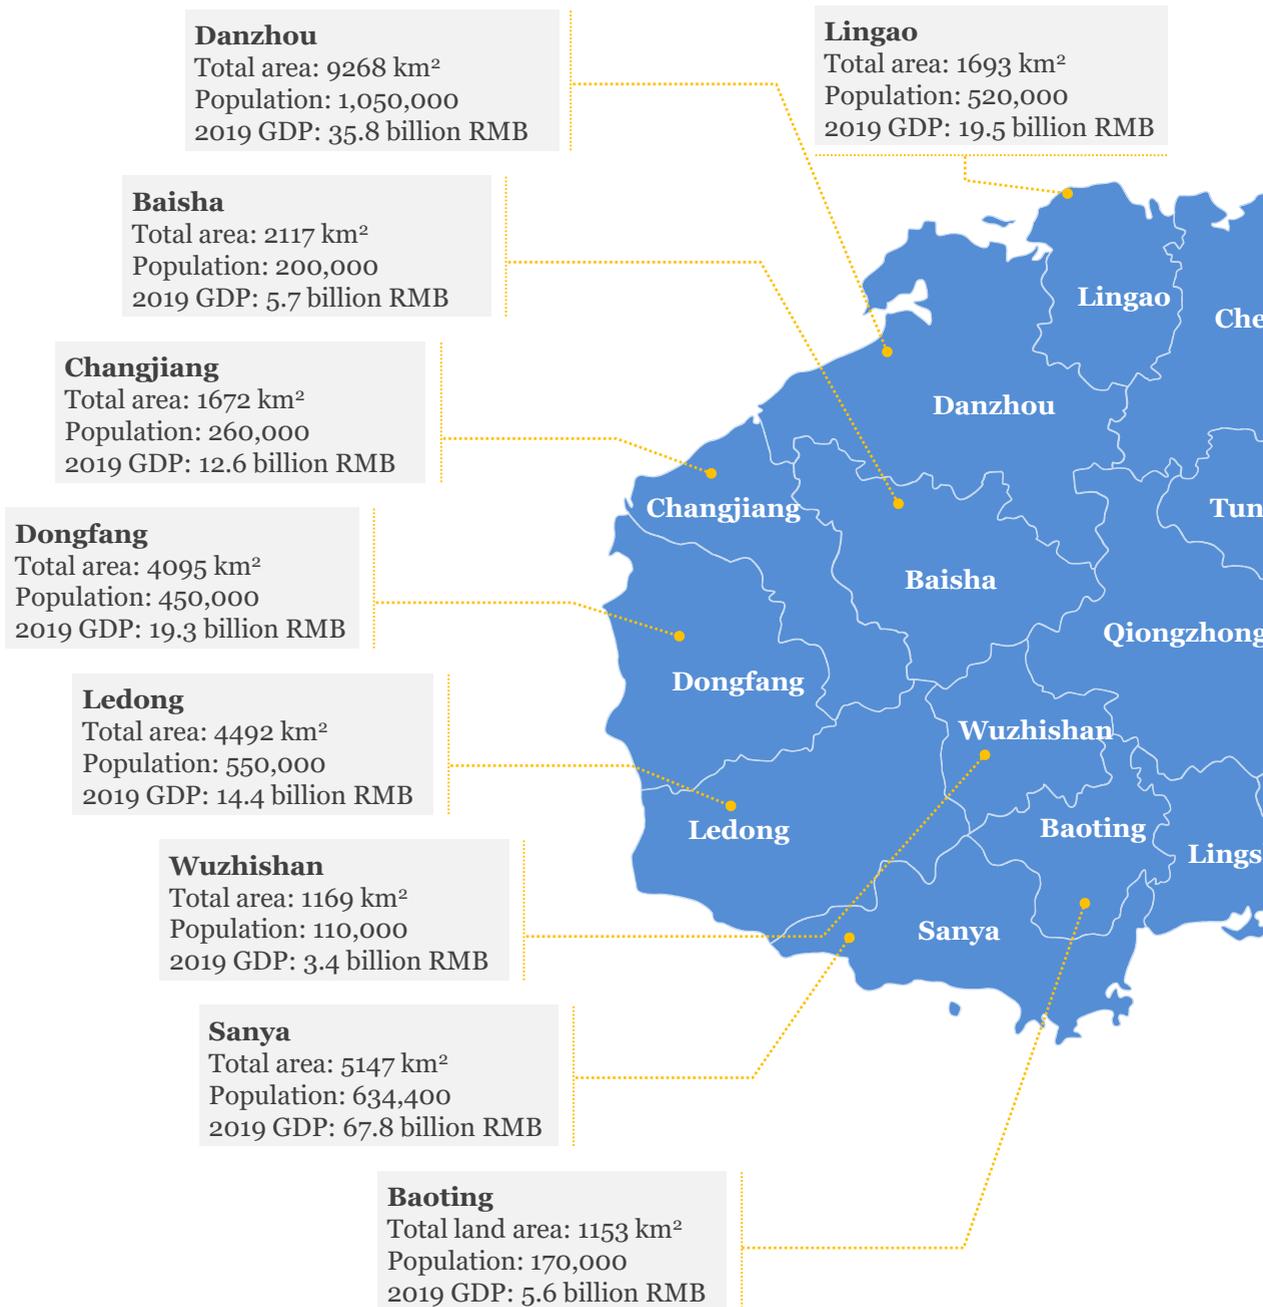

Part 4. Regional Guidance

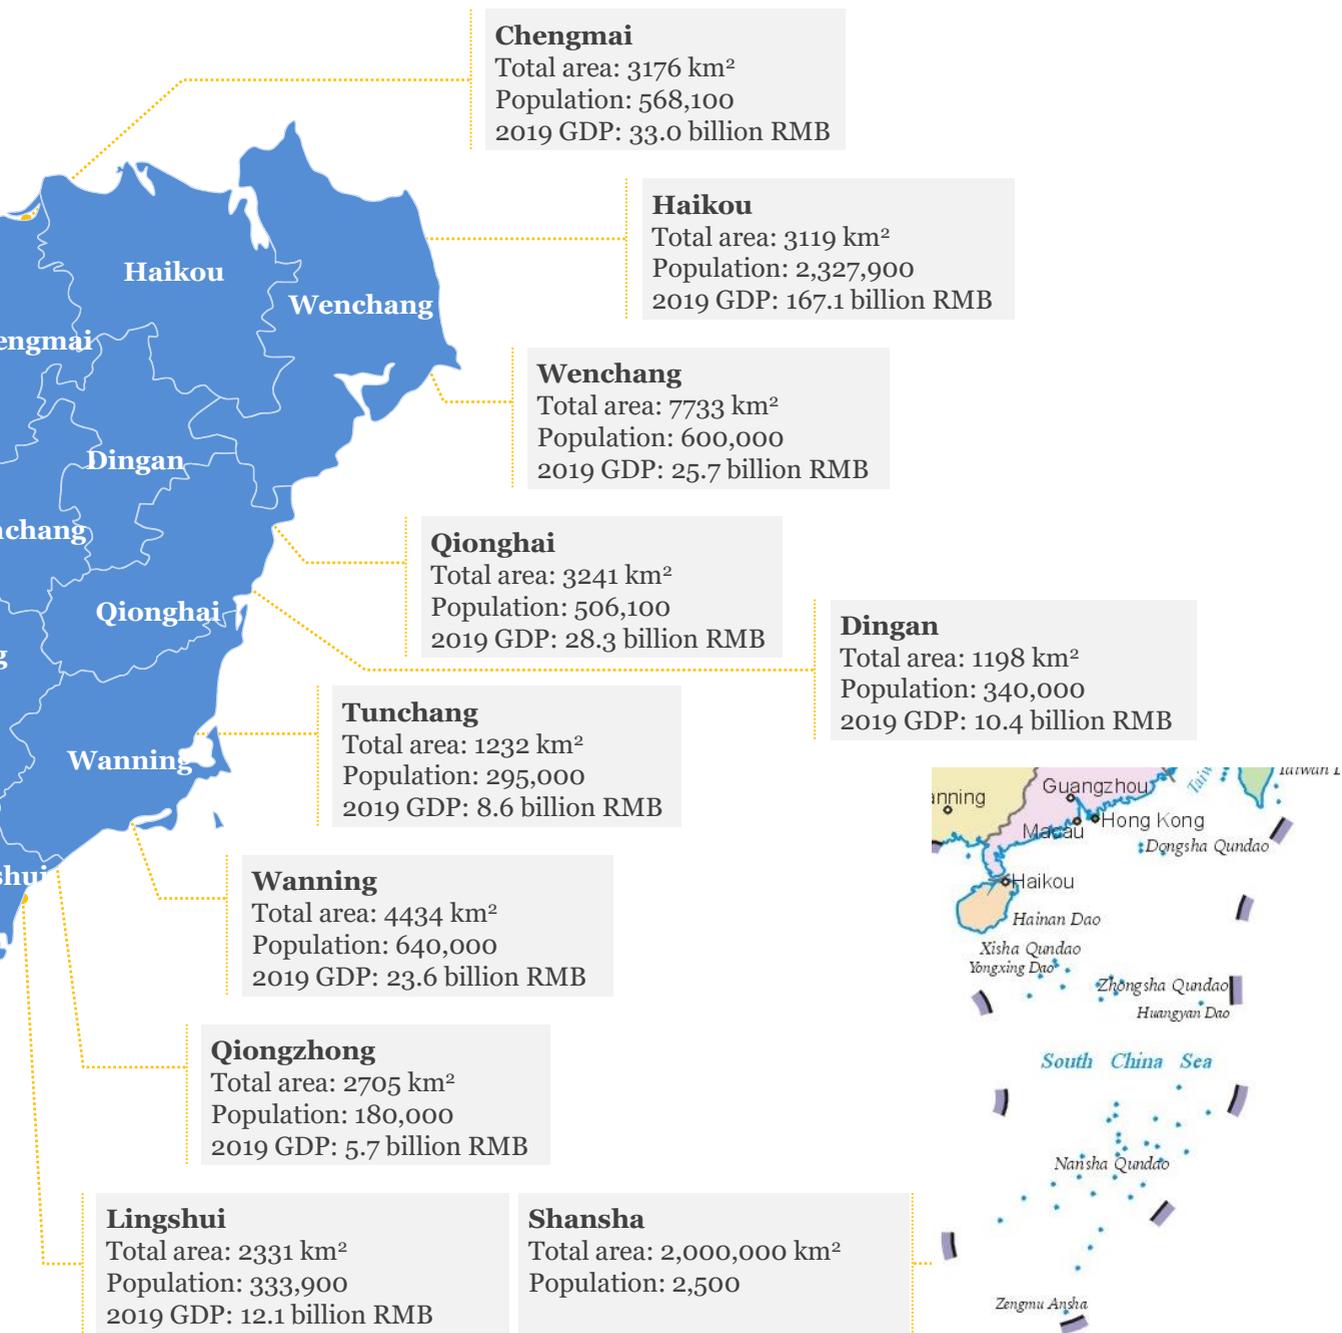

- 1 City Overview
- 2 Introduction to Major Investment Region
- 3 Major Parks

4

1 City Overview

Hainan Province governs 4 prefecture-level cities, 5 county-level cities, 4 counties, and 6 autonomous counties. It is the only tropical island province in China. It is the largest special economic zone in China, as well as the largest free trade zone and the only free trade port with Chinese characteristics

2 Introduction to Major Investment Region

Haikou

Overview

- Located in the north of Hainan Island, Haikou covers a total area of 3119 km² and has a permanent population of 2.32 million. It is the political, economic, technological and cultural center and the largest transportation hub of Hainan Province.

- In 2019, the regional Gross Domestic Product reached 167.193 billion RMB, with an increase of 7.5%, ranked first in the province.

Major Industries

Guided by high-quality development, Haikou City continues to cultivate the real economy and new industries, new formats, and new kinetic energy.

- **The tourism industry has grown steadily:** the total tourism revenue for the year was 32.05 billion yuan, an increase of 7.6% over the previous year.
- **The convention and exhibition industry maintained rapid growth:** in 2019, a total of 315 conferences and exhibitions were held throughout the year, with a combined revenue of 12.2 billion yuan, an increase of 17% and 18% respectively.
- **The rapid growth of the medical industry:** In 2019, the pharmaceutical manufacturing industry above designated size completed 25.23 billion yuan, an increase of 3.6%.
- **Innovation and development of the marine industry:** 55 provincial and municipal key projects were implemented, with an annual planned investment of 27.03 billion yuan.

Target Areas

- Tourism
- Exhibition
- Low Carbon Manufacturing
- High-end Manufacturing
- Medical and Health
- Education
- Financial
- Logistics
- Tropical Efficient Agriculture

2 Introduction to Major Investment Region

Sanya

Overview

- Sanya is located in the southernmost part of Hainan Island, including Haitang District, Jiyang District, Tianya district and Yazhou district. The total land area is 1919.58 km², with a population of 685 thousands.

- In 2019, the regional Gross Domestic Product reached RMB 67.786 billion, grew by 6.4% over the previous year, ranking the second in the province.

Major Industries

- **Transformation and upgrading of the tourism industry:** A number of high-end special hotels have settled in, Qiong, Hong Kong and Macao Yacht Free Cruises have been implemented, and Costa Cruises has opened a Sanya home port route. In 2019, the number of yachts sailing out of the sea increased by 58.7% year-on-year, and inbound and outbound cruise ships increased by 29.7% year-on-year.
- **The development of modern service industry:** Datang Solar Headquarters and other 45 headquarters-type enterprises registered and landed.
- **The trend of high-tech industries has gradually been shaped:** with industrial parks as the starting point, actively develop high-tech industries. There are more than 150 registered enterprises and scientific research institutions in Yazhou Bay Science and Technology Park, and the annual output value of the enterprises entering the park exceeds 8 billion yuan, an increase of more than 70% year-on-year.

Target Areas

- Culture and Sports
- Duty Free Consumer Goods
- Cruise Yacht
- Roundabout Tourist Road
- Modern Finance
- Offshore Trade
- Finance Lease
- Deep sea technology
- Tropical Efficient Agriculture
- Aviation Industry

2 Introduction to Major Investment Region Qionghai

Overview

- Qionghai is located in the east of Hainan Province, with a land area of 1,710 km² and a permanent resident population of 510 thousands. It includes Qionghai Boao International Airport, Tanmen and other ports.

- In 2019, the regional Gross Domestic Product reached RMB 28.33 billion, grew by 5.1% over the previous year. The per capita GDP is RMB 54,630, increase by 4.0% over the previous year.

Major Industries

- **The rapid development of the medical and health care industry:** the annual revenue of medical institutions was 640 million yuan, an increase of 68.9% year-on-year.
- **Tropical characteristic and efficient agriculture continues to grow:** the added value of tropical characteristic and efficient agriculture throughout the year was 6.664 billion yuan, an increase of 4.2% over the previous year.
- **The quality and efficiency of tourism in the whole region:** a total of 4,851,600 tourists were received throughout the year, an increase of 12.8% year-on-year; tourism revenue was 3.359 billion yuan, an increase of 5.59% year-on-year.

Target Areas

- Health Care Industry
- Global Tourism
- Tropical Efficient Agriculture
- Conference and Exhibition
- Recreational Fishery
- High Tech Industry
- Duty Free Consumer Goods
- Roundabout Tourist Road

2 Introduction to Major Investment Region

Wanning

Overview

- Wanning is located on the southeastern coast of Hainan Island, with tropical maritime monsoon climate, annual average temperature of 24.8 °C, land area of 1883.5 km², and total population of about 640,000.

- In 2019, the regional GDP reached 28.3 billion yuan, with a year-on-year increase of 4.1%. Regional GDP per capita was 54,630 yuan, an increase of 4.0% over the previous year.

Major Industries

- The tourism industry continued to grow:** the total number of tourists in the city for the whole year was 6.331 million, 8.49% year-on-year, and the total annual income for the year was 543.3342 million yuan, 13.08% year-on-year. Among them, the total number of overnight trips was 5.136 million people, 9.6% year-on-year, the total revenue of overnight trips was 510539.42 million yuan, 13.35% year-on-year; the total number of day trips was 119.44 million, 3.8% year-on-year, and the total income of day trips was 327.97 million yuan, 8.93% year-on-year.
- Increasing quality of modern agriculture with tropical characteristics:** Wanning Betel nut planting area accounts for more than half of the province. Now it has built demonstration bases for high-yield cultivation of betel nuts in Liji, Shangen, Dongao, Changfeng, Peking University, etc., and comprehensive prevention and control of betel yellowing symptoms Demonstration base, betel nut pest control demonstration base, etc.

Target Areas

- Tourism
- High-tech industry
- Culture and sports
- Space technology innovation strategy
- Space science and exploration
- new material
- High-end equipment
- new energy
- Tourist road around the island

2 Introduction to Major Investment Region

Wenchang

Overview

- Wenchang is located in the northeast of Hainan Province, where the Hainan Wenchang Space Launch Center is located. and is the fourth aerospace city in China. The total population is about 600,000.

- In 2019, the regional GDP reached 25.70 billion yuan, an increase of 5.2% over the previous year. Regional GDP per capita was 44,928 yuan, an increase of 4.1% over the previous year.

Major Industries

- The rapid growth of tourism:** Carried out "International Tourism Consumption Year" and "Gourmet Shopping Carnival" activities, a total of 3.846 million visitors and 2.698 million overnight visitors were received, an increase of 14.3% and 12.8% respectively, the growth rate ranked first in the province, total tourism revenue 1.97 billion yuan, an increase of 26.1%.
- The high-tech industry has developed steadily:** successfully launched Hainan's first commercial satellite "Wenchang Chaosuan No. 1". built a big data service platform for resource and environmental supervision, and took the lead in aerospace in the province Supercomputing big data, satellite remote sensing and other technologies are applied to the field of ecological environment supervision. Aerospace International Film and Television Center, Hangzhou Digital Technology Co., Ltd. Big Data Index Project and other aerospace digital economic industry projects have been put into operation.

Target Areas

- Tourism
- High-tech industry
- Culture and sports
- Space technology innovation strategy
- Space science and exploration
- new material
- High-end equipment
- new energy
- Tourist road around the island

2 Introduction to Major Investment Region

Danzhou

Overview

- Danzhou is the economic, transportation, communication and cultural center of western Hainan, with total area 9268 km² land area of 3,400 km² and a total population of 1,050,000. The land and sea transportation is well developed.

- In 2019, the regional Gross Domestic Product reached 35.76 billion yuan, with a year-on-year increase of 6.5%. Regional GDP per capita was 39,065 yuan, an increase of 5.6% over the previous year.

Major Industries

- **Tropical characteristic high-efficiency agriculture continues to grow bigger and stronger:** continue to reduce 28,000 acres of low-efficiency crops, rehabilitate abandoned land 24,000 acres, build 8 large-scale agricultural industrial projects of more than 500 acres, and plant 120,000 acres of tropical fruits in the city.
- **The tourism industry has a good momentum of development:** it received 3.4572 million tourists throughout the year, with a total tourism revenue of 2.02 billion yuan, an increase of 17.0% respectively. That Dashiwu Village was selected as a provincial five-coconut rural tourism spot, and Mutang Blacksmith Village was selected as a national rural tourism focus village.
- **New breakthroughs in the high-tech industry:** the introduction of the world's leading, Asia's first high-temperature color glaze printing glass production line, and Walkinton has become the province's largest glass industry chain DiP-Tech's global launch base.

Target Areas

- Tourism
- Tropical efficient agriculture
- High-tech industry
- Culture and sports industry
- Medicine and medical industry
- Advanced low-carbon manufacturing
- Tax-free consumer goods
- Education industry

2 Introduction to Major Investment Region

Dongfang

Overview

- Dongfang is located in the southwestern part of Hainan Province, with a total land area of 4,095 km² and a total land area of 2,272 km², a resident population of 427,700, only 130 kilometers from Sanya Phoenix International Airport.

- In 2019, the regional Gross Domestic Product reached 19.30 billion yuan, with a year-on-year increase of 3.2%. Regional GDP per capita was 44,684 yuan, an increase of 2.2% over the previous year.

Major Industries

- **The agricultural industry structure continued to adjust:** In 2019, the agricultural added value was 4.945 billion yuan, an increase of 5.3% year-on-year, and the growth rate ranked first in the province.
- **Industrial transformation, upgrading and quality improvement:** 24 provinces and municipalities have completed investment of 4.84 billion yuan in key projects, the Huasheng PC project has been smoothly promoted, special glass deep processing projects have been completed and put into production, and signed a contract with Beixin Group Building Materials Co., Ltd. for 30 million square meters of paper gypsum 8 projects including board production line, with a total investment of 2.44 billion yuan.

Target Areas

- Advanced low-carbon manufacturing
- Oil & Gas chemical
- Offshore deepwater oil and gas drilling and production equipment
- General and special marine engineering supporting equipment

2 Introduction to Major Investment Region

Lingshui

Overview

- Located in the southeast of Hainan Island, 58 km away from Sanya Phoenix Airport, with a total area of 2,331 km² and a land area of 1108 km². The population is about 400,000.

- 2019, the regional GDP is 18.32 billion yuan, with goals to accelerate development of marine economic and tourism industry.

Major Industries

- **Tropical characteristics and high-efficiency agriculture to improve quality and efficiency:** Lingshui National Modern Agricultural Industrial Park, with Mango, watermelon and litch as the leading industries, has been approved by the Ministry of Agriculture and Rural Affairs and the Ministry of Finance. Guangling Hi-Tech was rated as a national key leading enterprise in agricultural industrialization by the Ministry of Agriculture and Rural Affairs and other 8 ministries.
- **High-tech+Tropical marine aquaculture industry shows results:** The province's first demonstration project based on "5G+Marine Ranch" —Cage bio-environment online monitoring system is in trial operation in Lingshui deep-sea aquaculture farm, and intelligent deep-water cage aquaculture has entered the implementation stage.

Target Areas

- International education
- Tropical efficient agriculture
- Medical wellness
- Digital industry
- Marine information industry
- Cultural tourism
- Mobile internet
- Satellite navigation
- Military-civilian integration industry

2 Introduction to Major Investment Region

Changjiang

Overview

- Changjiang is located in the northwest of Hainan with an area of 1,620 km². It governs 8 towns and has a population of 255,000. It has a unique industrial development advantage, such as Shilu Iron Mine and the only nuclear power in Hainan.

- In 2019, the regional Gross Domestic Product reached 12.63 billion yuan, with a year-on-year increase of 3.5%. Regional GDP per capita was 53,798 yuan.

Major Industries

- The continuous development of the characteristic breeding industry:** a total of 22 certifications for the origin of the “three products and one standard” agricultural products, of which 3 were completed in 2019. Maodou in Baoping Village was approved as a national “one village and one product” model village and town, and the Wangpin Rock Sugar Melon Base in Haiwei Town, Wulie Town, Hefeng Century Industrial Park and Wulie Town Mizquan Company Dragon Fruit Production Demonstration Base were approved as Provincial Modern Agricultural Industrial Park.
- The rapid development of characteristic industries:** the output value of the power supply industry is 3.423 billion yuan, an increase of 23.2% year-on-year; the output value of the ferrous metal mining and processing industry is 1.339 billion yuan, an increase of 62.5% year-on-year; the output value of the rubber and plastic products industry is 114 million yuan, an increase of 14.7% year-on-year.

Target Areas

- Modern agricultural photovoltaic tourism
- Tourist road around the island
- Clean energy
- Tax consumer goods
- Transportation industry
- Foreign trade
- Agency industry
- Sea (light) aquaculture

2 Introduction to Major Investment Region Chengmai

Overview

- Located in the northwest of Hainan, Chengmai is an important part of the "Haicheng culture" integrated economic circle, with a land area of 2076 km² and a sea area of 1100 km². The population is about 560,000

- In 2019, the regional GDP reached 33.02 billion yuan, with a year-on-year increase of 6.0%, aiming to accelerate the introduction and cultivation of large-scale industrial enterprises in the future

Major Industries

- **The overall development trend of the low-carbon industry is getting better:** the added value of low-carbon manufacturing accounts for 13.4% of the industrial increase. Actively develop industries such as blockchain, digital style, digital health, and digital finance. The Free Trade Zone Blockchain Pilot Zone has gathered more than 100 scientific research institutions and famous enterprises
- **The rapid growth of selenium-rich agriculture:** There are 5 national standardized production demonstration parks and 17 provincial standardized production demonstration parks in the county

Target Areas

- Tropical characteristic and efficient agriculture
- Low-carbon manufacturing
- Digital Style Industry
- Digital health industry
- Cloud computing
- Artificial intelligence
- Leisure low-carbon tourism

2 Introduction to Major Investment Region

Qiongzong

Overview

- Located in the middle of Hainan Island, its development layout is around the main urban area, the Green Industrial Park in the middle, and the urban functional area relying on the eight scenic spots in Qiongzong

- In 2019, the regional Gross Domestic Product reached 57.48 billion yuan, with a year-on-year increase of 5.5%

- Dominated by tourism, modern services and high-tech industries, the key industries for investment include cultural and sports education, health and wellness, tourism and pension, tropical and efficient agriculture, tourism development and urban commerce.

Tunchang

Overview

- Located in central Hainan, covering an area of 1232 km², it is the only hilly area in the province. Known as the "Hainan Central Portal", it is 70 kilometers away from Haikou. It takes about 45 minutes by car after the opening of Haitun Expressway

- In 2019, the regional Gross Domestic Product reached 8.57 billion yuan, with a year-on-year increase of 5%

- The leading industries are Nanyao Planting and Nanyao Health Tourism Tourism, and the investment attraction focuses on high-end characteristic tourism industry, Nanyao Tourism, agricultural products deep processing, Nanyao R&D and production, organic health food industry

2 Introduction to Major Investment Region

Dingan

Overview

- Dingan has an area of 1178 km², 28 kilometers north of the city center of Haikou, the provincial capital, 30 kilometers from Meilan Airport, and 57 kilometers from Haikou Railway Station, known as the back garden of Haikou

- In 2019, the regional Gross Domestic Product reached 10.44 billion yuan, with a year-on-year increase of 2.9%

- Leading industries include emerging green food processing, and investment promotion focuses on low-carbon manufacturing, modern service industry, pharmaceutical industry, high-end comprehensive leisure vacation, red tourism area construction, emerging green food processing industry, Internet+, business logistics

Lingao

Overview

- Located in the northwest of Hainan, with an administrative area of 1,317 km² and a population of 515,000. The county has two major development zones: Jinpaigang Economic Development Zone and Lingaojiao Tourist Resort

- Regional GDP in 2019 was 19.54 billion yuan, up 6.3% year-on-year

- Leading industries include tropical fisheries and tropical high-efficiency agriculture, and investment promotion focuses on tropical high-efficiency agriculture, tourism, healthcare, e-commerce

2 Introduction to Major Investment Region

Baisha

Overview

- Baisha is located in the middle of Hainan Province, at the northwest of the middle part of the Limu mountains and the upstream of Nandu River, with a total area of 2,117.73 km². It is 177 km away from Haikou City and 169 kilometers away from Sanya

- In 2019, the regional Gross Domestic Product was RMB 5.664 billion, increase by 4.5% over the previous year

- The leading industries are tourism and tropical high-efficiency agriculture, and investment promotion focuses on rubber industry, tropical high-efficiency agriculture, tourism

Baoting

Overview

- Located in the south-central part of Hainan Island, 78 km from Sanya City, 20 km from Yalong Bay Resort and 10 km from Sanya Haitang Bay Resort. The county has a total area of 1153 km² and belongs to a tropical monsoon climate zone

- Regional GDP in 2019 was 55.7 billion yuan, up 3.3% year-on-year

- Leading industries include tourism and tropical high-efficiency agriculture, and investment promotion focuses on tropical high-efficiency agriculture, tourism, Chinese medicine and health care

2 Introduction to Major Investment Region

Wuzhishan

Overview

- Wuzhishan is surrounded by mountains, with a forest coverage rate of 86.44% and an annual average temperature of 22.4 °C. It has the reputation of "emerald mountain city", "natural oxygen bar", "Summer Palace of South China" and "summer resort"

- In 2019, the regional Gross Domestic Product reached RMB 3.4 billion, increase by 6.0% over the previous year

- The leading industry is tourism, and the investment promotion focuses on terraced farming tourism, rural cultural tourism, and red tourism

Ledong

Overview

- Ledong has a land area of 4492 km² and a population of 547,200. There are Yuehai Railway and other transportation lines converged in Ledong. It also close to Port of Sanya, Port of Basuo, Sanya Phoenix International Airport and Sanya Hongtangwan International Airport

- In 2019, the regional Gross Domestic Product reached RMB 14.435 billion, increased by 3.9% over the previous year

- The leading industries are tourism and high-efficiency tropical agriculture, and investment promotion focuses on tourism, high-efficiency tropical agriculture, the Internet, and medical wellness

3 Major Parks

Haikou Jiangdong New Area

Location

Located in the east coast area of Haikou City, close to the Meilan Airport, with a total area of about 298 km². The park is divided into 106 square kilometers of eastern ecological function area and 192 square kilometers of western industrial-urban integration area.

Objectives

The park is comprehensively deepen the innovation zone of the reform and opening-up pilot zone, the demonstration zone of the national ecological civilization pilot zone, the experience zone of the international tourism consumption center and the demonstration zone of the national major strategic service guarantee zone.

Targets

- Airport economy: aviation maintenance, aviation leasing, cross-border e-commerce, airport commercial business, etc.
- Service economy: headquarters economy, modern finance, trading center, digital economy, professional services, etc.
- Ecological economy: tourism, urban farms, health care, etc.

National Hi-tech Industrial Development Zone

Location

Located in the center of the Haikou Industrial Corridor, the overall planned area of the park is 85.42 square kilometers. It is the only national high-tech zone in Hainan Province. It is China's high-tech industrial gateway to Southeast Asia and an important industrial pivot park for the "21st Century Maritime Silk Road" .

Objectives

Focus on the development of high-tech industries such as medicine and medical equipment, high-end low-carbon manufacturing, smart sensors and information technology.

Targets

- High-tech
- Medical equipment and health care
- New material
- Tourism

3 Major Parks

Haikou Free Trade Zone

Location

Hainan's only comprehensive bonded area and one of the two customs special supervision areas in the province are currently the parks with the highest opening level and strong outward economic agglomeration in Hainan, close to the national first-class port-Macun Port (about 2 km), and away from the island High-speed 5 km, within 15 km there are three high-speed railway stations in Haikou, Old Town and Fushan, 30 km away from Xinhai Port, 40 km away from Meilan Airport, 90 km away from Yangpu Port.

Objectives

Build a processing and manufacturing center, R & D design center, logistics distribution center, inspection and maintenance center and sales service center with global influence and competitiveness

Targets

- Bonded warehousing, warehousing and distribution of imported consumer goods (duty-free goods), and bulk commodity trading.
- Cross-border e-commerce and international logistics and distribution.
- Circulation processing and low-carbon manufacturing.
- Diamond jewelry processing display transaction.
- Parallel sales of automobiles and display sales of vehicles such as transportation and tourism imports.
- Finance lease.
- Regional functional headquarters and offshore financial settlement center.

Location

Located on the west side of Haikou and the Meilun River, the location is superior and the transportation is convenient. Four main roads including G98 Huandao Expressway directly reach the urban area of Haikou, a 30-minute drive from Meilan International Airport, and the West Loop High Speed Rail Old Town Station is located in the southwest corner of the park.

Objectives

Take the new generation of information technology industry as the leading factor and focus on the development of "one district and three industries", that is, to create the Hainan Free Trade Zone Blockchain Pilot Zone and develop digital culture, digital services, digital health and other industries.

Targets

- Next-generation information technology industry: such as blockchain, big data, etc.
- Digital sports industry: such as gaming e-sports products and platforms
- Digital health industry: such as the development and application of medical and health big data
- Trade and exhibition industry: such as trade service platform and trade and exhibition activities.

3 Major Parks

Hainan Boao Lecheng International Medical Tourism Pioneer District

Location

Located on the banks of the Wanquan River between the urban area of Qionghai and the core area of Boao Forum for Asia, it is surrounded by regional transportation facilities such as provincial highways, national highways, and expressways. Surrounded by districts, providing city service support.

Objectives

Gather international high-end medical tourism services and international cutting-edge medical science and technology achievements to create an international medical technology service industry agglomeration area.

Targets

- Chartered Medical
- Health management
- Care and rehabilitation
- Medical beauty and anti-aging

Yangpu Economic Development Zone

Location

Located in the central area of the Pan Beibu Gulf, adjacent to the ASEAN Free Trade Area, it is China's closest petrochemical and oil and gas reserve base to the South China Sea oil and gas resources and the Middle East Petroleum.

Objectives

Build a new coastal industrial city with high industry concentration, perfect city functions and beautiful ecological environment.

Targets

- New petrochemical industry
- Advanced manufacturing
- Modern service industry

3 Major Parks

Sanya Yazhou Bay Technology Center

Location

Located in the west of Sanya City, Hainan Province, adjacent to Nanshan Cultural Tourism Zone and Xiaotiangongtian Scenic Area, has a planned area of 26.1 km²

Objectives

Focus on building "one port, three cities, one base" (Nanshan Port, Nanfan Science and Technology City, Abyssal Sea Science and Technology City, Science and Education City and global animal and plant germplasm resources transfer base), committed to building a land and sea overall planning, open innovation, The leading technology new city with industrial prosperity, cultural confidence and green energy conservation.

Targets

- Abyssal sea industry
- Nanfan Technology Industry
- Tropical efficient agriculture
- Technology Service Industry

Sanya Central Business District

Location

The park is located in the core area of the city, adjacent to the coastline of Sanya Bay, with a superior geographical position and a total planned area of 4.42 km².

Objectives

Create a pioneer zone for the construction of a free trade environment: Create a national demonstration city of ecological civilization. Build a leading zone for international tourism consumption centers and a zone that is deeply integrated into the maritime power, the construction of the "Belt and Road", and integrated military and civilian development.

Targets

- Hailuo Unit: Building Garden Headquarters and International Talent Community.
- Yuechuan Unit: International Waterfront Commercial Cultural Pedestrian Street and Comprehensive Business District.
- Phoenix Coast: Tourist port free trade service and cruise ship yacht, culture and arts comprehensive consumption area.
- East Bank Unit: Large-scale comprehensive consumer business district and core area of headquarters.

3 Major Parks

Wenchang International Aerospace City

Location

The planned area of Wenchang International Aerospace City includes a starting area, a launch site and supporting areas. The starting area is located on the west side of Bamen Bay, between Wenchang Old City and Qinglan New City, 20 kilometers away from Wenchang Aerospace Launch Site. The total planned land area is 12.08 square kilometers, including the west area of Bamen Bay and the area of aerospace big data industrial cluster.

Objectives

An open, international, innovative and integrated world-class space city.

Targets

- Aerospace core industry: key technology experiments, engineering technology basic research, infrastructure R&D and production, aerospace technology application industry, innovative fusion technology and achievement transformation service.
- "Aerospace +" extended industries: aerospace big data applications, smart Hainan, aerospace life sciences, science and education and training services, aerospace technology exhibitions and transactions, aerospace science and technology incubation, aerospace culture digital creative services, aerospace characteristics tourism and wellness.
- Technology support industry: new generation information industry, high-tech, new infrastructure construction.
- Service supporting industries: scientific and technological services, cultural creativity and literary and artistic services, business services, financial services, tourism services, sharing economy.

Lingshui Li'an International Education Innovation Pilot Zone

Location

Located in the southeast of Lingshui County, Hainan Province, north to General Planning Road, south to Nanwan Reserve, east to Li'an Port, west to Xincun Port.

Objectives

Build a national demonstration zone for educational innovation and development, and build a training ground for high-quality, international, and innovative talents.

Targets

- Introduce overseas high-level universities and vocational colleges in science, agriculture and medicine to run schools independently.
- Introduction of well-known international schools.
- Introduce well-known universities at home and abroad to host Chinese-foreign cooperatively-run schools and projects.

3 Major Parks

Fuxing Internet Information Industry Park

Location

The first phase of the park is located in the core coastal business district of Haikou, and the second phase of the park is located in the south bank area of Haikou 's west coast city government. There are currently 784 registered enterprises in the park.

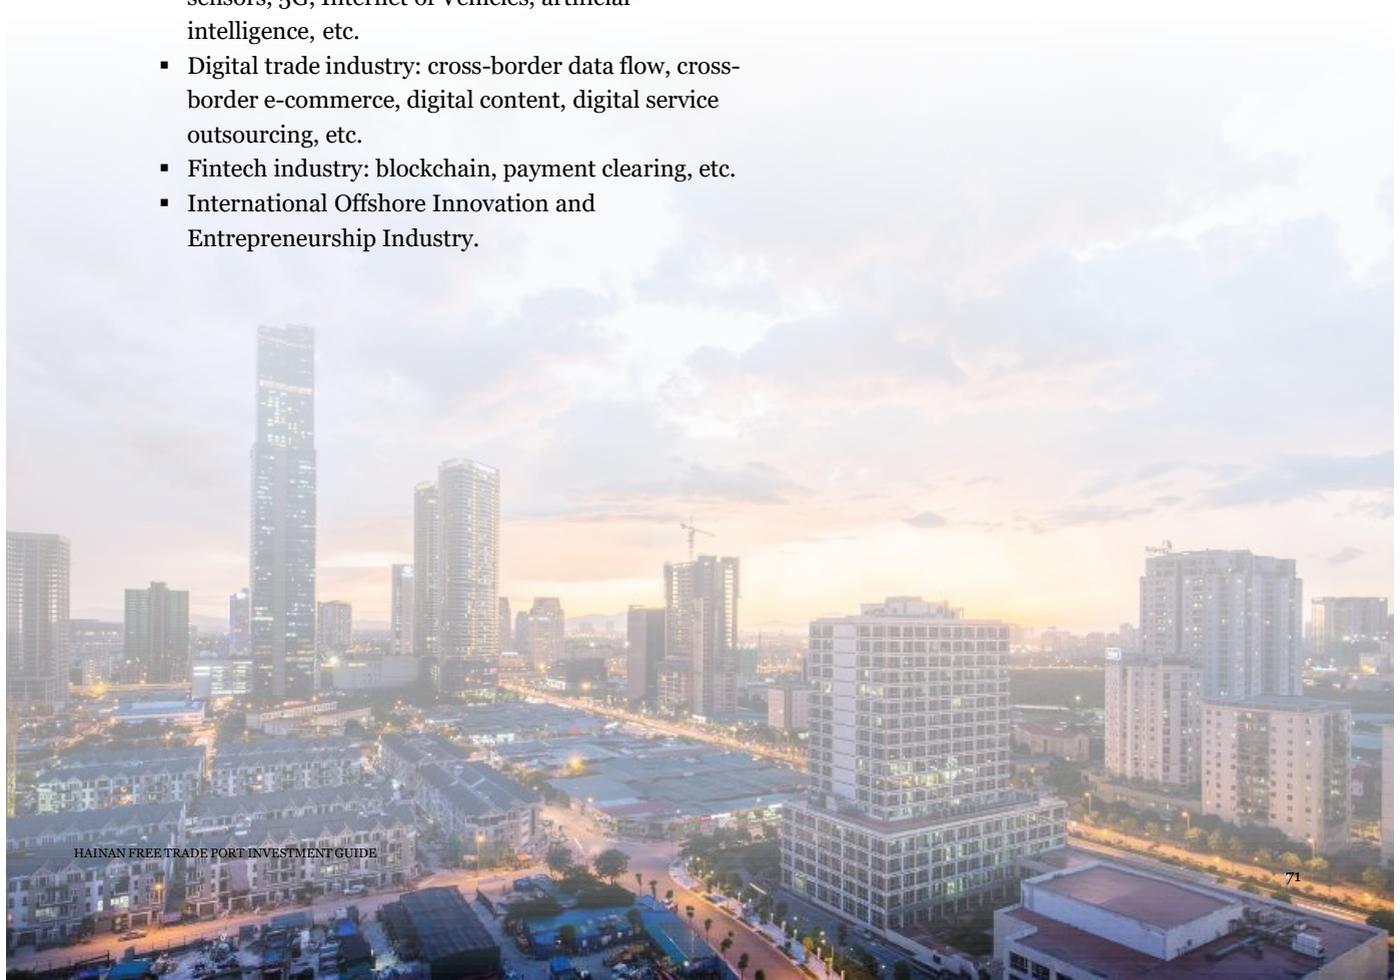

Objectives

Build an international digital economy headquarters and an international offshore innovation and entrepreneurship base.

Targets

- Intelligent IoT industry: chips and components, sensors, 5G, Internet of Vehicles, artificial intelligence, etc.
- Digital trade industry: cross-border data flow, cross-border e-commerce, digital content, digital service outsourcing, etc.
- Fintech industry: blockchain, payment clearing, etc.
- International Offshore Innovation and Entrepreneurship Industry.

Hainan and Hong Kong Economic Cooperation Development Promotion Platform

Building Six Cooperation Platforms Around the “the Strengths of Hong Kong and the Needs of Hainan”

On June 8, 2020, Lin Nianxiu, the deputy director of the National Development and Reform Commission, pointed out in the press conference of the State Council that the orientation of Hainan Free Trade Port is different from that of Hong Kong. In the construction of Hainan Free Trade Port in the next stage, the joint development between Hainan and Guangdong-Hong Kong-Macao Greater Bay Area will be further strengthened, practical and effective cooperation will be carried out to enhance complementarity

Building six cooperation platforms and strengthening regional cooperation around the theme of "the strengths of Hong Kong and the needs of Hainan", Hainan will further learn from the advanced experience of internationally renowned free trade ports, connecting with international high standard economic and trade rules, and formatting an open system with international competitiveness, continuously attracting international advanced technology, management experience and foreign investors to participate in the construction of free trade ports

■ Provincial cooperation platform

Further promoting the comprehensive cooperation between Hainan and Hong Kong, especially Hong Kong's SMEs to participate in the construction of Hainan Pilot Free Trade Zone and Free Trade Port, sharing development opportunities in Hainan, coordinating and promoting major economic cooperation projects

■ Key industry cooperation platform

Aiming at Hong Kong's advantageous industries around the three major industrial of Hainan Free Trade Port, exploring and promoting the implementation of key projects

■ Practical and efficient cooperation activity platform

Organizing major activities of cooperation and exchange between Hainan and Hong Kong, promoting the establishment of an efficient cooperation platform and the interchange of personnel, funds, goods and information

■ Liaison office of HKTDC in Hainan Free Trade Port

The economic and trade liaison office of Hong Kong Trade Development Council in Hainan is set up in Hainan International Economic Development Bureau, promoting extensive contact and interaction with enterprises in Hainan and Hong Kong

■ Interactive platform for members of CPPCC National Committee in Hainan and Hong Kong

Through relevant platforms and mechanisms of the CPPCC, promote exchanges and cooperation with members of the CPPCC National Committee of the CPPCC, and promote the implementation of more projects of CPPCC members

■ Interactive platform of Central Hong Kong-related Government Departments and Central Hong Kong-related enterprises

Establishing contact mechanism for central Hong Kong-related government departments and central Hong Kong-related enterprises

Notice of China Southern Power Grid Corporation on Printing and Distributing Key Measures for Comprehensively Deepening Reform and Opening-up to Serve Hainan

Afterword

In 2020, the construction of Hainan Free Trade Port set sail and will create a highly free, convenient and open business environment. This guide aims to combine the *Hainan Free Trade Port Construction Overall Plan* to comprehensively display the investment policies, investment opportunities, investment regions, investment promotion agencies and other investment elements of the Hainan Free Trade Port. It is a global intent to develop investment and economic and trade activities in Hainan Investors provide guidance.

During the preparation of this guide, the provincial government departments, cities, counties, and key parks of Hainan Province have provided strong support. Here, I would like to thank all relevant departments for their hard work and efforts in the collection, update and verification of information and data!

The *2020 Hainan Free Trade Port Investment Guide* was jointly issued by the Hainan International Economic Development Bureau and PricewaterhouseCoopers. PwC mobilized the top domestic team to present the first edition of the Hainan Free Trade Port Investment Guide to global investors with a professional perspective and unconventional speed. Special thanks to PricewaterhouseCoopers.

This version of the *Investment Guide* aims to provide a one-stop service for global investors. In terms of content, structure, layout design, etc., it closely meets the needs of investors, allowing investors to understand Hainan more concisely and comprehensively through the guide. Free trade port, get the most practical investment and settlement information. This version of the *Investment Guide* will be published in both Chinese and English, and investors from all over the world are welcome to read, share and put forward valuable opinions and suggestions.
