UNEXPALM	Union des Exploitants du Palmier à Huile

INTRODUCTION

This Investment Projects Register was originally put together by the Commonwealth Business Council in partnership with the Government of Cameroon and the private sector sponsors of the 2009 Cameroon Investment Forum held in Yaoundé. It has been updated (June 2010) with the financial support of the Office of the Prime Minister. It focuses on the new opportunities for investment partnerships emerging across Cameroon and the Central African Region. The project register is aimed at global business leaders looking for profitable investment opportunities in a stable environment, rich in mineral, natural and human resources. It presents the core areas of future investments for Cameroon. It presents investments of interest to private sector Companies, Investment Authorities, Chambers of Commerce, Chambers of Agriculture Animal Husbandry and forestry as well as Small and Medium Sized Enterprises (SMEs).

A brief socio-economic situation of Cameroon has been presented with a view of attracting Foreign Direct Investments and development.

The Socio-Economic Situation of Cameroon

Cameroon is a bilingual (English and French) country situated along the Gulf of Guinea. It has a population of about 20mns (latest census) the country enjoyed an economic growth rate of 7% up till 1985. The economic depression of 1986 and the present world financial crisis have led to a drop in this growth rate to less than 4%. Despite this, the GDP per capita in 2008 was \$2,152, one of the ten highest in sub-Saharan Africa.

The country's economy is powered by agriculture 46%, industry 21% and services 33%. The labour force by occupation is 70% agriculture, 13% industry and commerce, and other services 17%.

Several development strategy and processes are underway to boost the economic, social and environmental dimensions of sustainable development. Most notable of these include: the National Strategy for the Enhancement of Economic Growth and Employment, National Environmental Management Plan (NEMP), the Millennium Development Goals (MDGs), the National Programme on Good Governance (NPGG), the National Commission for the fight against corruption (CONAC). There is also a national strategic plan to fight against HIV AIDs. Cameroon is part of the Bank of Central African States (of which it is the dominant economy), the Customs and Economic Union of Central Africa (UDEAC) and the Organization for the Harmonization of Business Law in Africa (OHADA) These programmes have been conceived to enhance a favourable business climate and to attract Foreign Direct Investment and Development with a vision to making Cameroon a benchmark emerging economy by 2030.

Attracting Foreign Direct Investment and Development

Foreign Direct Investment is considered an essential source of capital when accompanied by the transfer of technology, knowledge and the creation of employment opportunities thus bridging the gap between North and the South. Through FDIs, foreign companies create linkages with local enterprises and help in building a competitive domestic enterprise sector. This form of Public Private Partnership (PPP) adopted by the Government of Cameroon helps to expand production capacity, opens paths to advanced technology and management practices and creates jobs for the economy.

The investment projects register therefore provides business options to technical and financial partners seeking new investment opportunities or expanding existing ones in a stable and resourceful economy.

The Register

As presented in the tables that follow, projects have been identified from both public and the private sectors. The project title is presented by development sector, with some information about the available resources at the time studies for the projects were conducted. Details of the project owners and/or promoters are indicated for subsequent contacts and correspondences. The project value, current funding levels and financial requirements are in millions FCFA. (roughly 500 to the USD) Technical requirements and relevant observations with respect to each of the projects are indicated.

PUBLIC SECTOR INVESTMENT PROJECTS

INVESTMENTS IN THE TRANSPORT SECTOR

Project Title	Project Description		Project Owner/Promoter (Contact Details)	Project value (Million FCFA) (a)	Current Funding		Requirement		Observations
	Activities	Resources			Sources	Level (b)	Technical	Financial (Million FCFA) (C = a - b)	
Infrastructures PORTS (MINT)	Construction of Kribi Deep Seaport	Under preparation: Declaration of public utility signed, expropriation decree is being prepared for signature and geo- seismic survey carried out . <i>Compensation and resettlement imminent. Negotiations are underway with China to finalise the funding of the project.</i>	MINEPAT/Department of Projects Mr. Abouna Zoa Guy, (+237) 22 23 35 81/ Fax: (+237) 22 22 15 57 www.camnetclient.cm/ minepat .	215 000	GOC DP	20 000 195 000	CONSTRUCTIO N	20 000 in 2010 Ongoing negotiations with China to finalise 195 000 funding	These costs concern only basic infrastructures. The constructions of terminals are envisaged as a PPP below.
	Construction and manage the Kribi Deep seaport terminals	BOT (Build, Operate and Transfer) ADB, AFD, BDEAC. A commission known as "comité de pilotage" has been put in place. The Public-Private- Partnership (PPP) approach has been adopted.	(MINEPAT) Directeur Infrastructure des infrastructure et appui au développement régional et local. Mr. Abouna Zoa Guy, (+237) 22 23 35 81/ Fax: (+237) 22 22 15 57 www.camnetclient.cm/ minepat .	500 000	GOC	6,000	Construction. Partnership building. PPP	494 000	First phase of the project is envisaged for 2010 – 2013. Technical and financial partners are required. The project is also aimed at constructing a 10 km long bridge over the Grand Batanga in the South of Kribi.

	Construct and manage the Limbe deep seaport.	Under preparation: feasibility studies finalised Public Private Partnership approach has been adopted by the Government of Cameroon to realise the project.	MINEPAT Directeur des infrastructures et appui au développement régional et local. Mr. Abouna Zoa Guy, (+237) 22 23 35 81/ Fax: (+237) 22 22 15 57 www.camnetclient.cm/minepat .	500,000	Fund raising underway GoC	74 000	TECNICAL PPP	426 000	In the course of execution. Technical and financial partners are needed.
	Construct and manage the Limbe oil shipyard (Yard pétrolier de Limbe)	Ministry of Public works (MINTP) AFD, BDEAC and others. Working area of 100 and 60 hectares on water and on land. 3000 direct and 1000 indirect jobs created	MINT/CNIC/ MINEPAT Directeur des infrastructures et appui au développement Régional et Local.
