## Small things matter

Namibia as a destination has grown globally over the years and this has encouraged the local tourism industry to take advantage of the growing number of tourists to the Land of the Brave. In this economically challenged climate, we need to become more creative in maintaining what we have as a tourist destination, hence the theme "Small things matter" for this year's expo.

Sustainable tourism in Namibia should continue to not only embrace foreign tourists but ensure that local tourists support the industry and for Namibians to appreciate our beautiful country. In doing so, we all become custodians of our environment to preserve it for future generations and help share in the economic benefits this sector brings to all Namibians. The Namibia Tourism Expo as platform strives to ensure that Namibians remain informed about what

the tourism industry in this region has to offer and, thereby, contributes to the continued sustainable development of this important industry. The Namibian Tourism Expo is proud of what it has been able to contribute towards the development of the Namibian tourism industry over the past 20 years.

The Namibia Tourism Expo this year launched the first National Tourism Conference and experts in various fields will be sharing their experience in sustainable growth in the tourism industry. It is our hope that many of us will leave the conference well equipped and motivated to work harder. We would like to extend a word of gratitude to our presenters for having agreed to share their knowledge and expertise with the broader tourism community.

We thank our exhibitors for their continued loyalty over the years and our readers and visitors for their enthusiastic support.

This expo would not be possible without our key sponsors: *Old Mutual Namibia and First National Bank Namibia*. Thank you for your investment in the tourism industry for the greater benefit of all.

We once again expect the expo to attract over 20 000 visitors and we hope that we will exceed your expectations at this 20th Namibia Tourism Expo.

Greetings from the Expo team

  
Albe Botha

If you do not press firmly enough, the bars will fall apart when you eat them. Place them in the fridge for 2-3 hours then cut to size.
5. Store in an airtight container in the fridge or on the counter.
